Read this manual carefully before you use this machine and keep it handy for future reference. For safe and correct use, be sure to read the Safety Information in "About This Machine" before using the machine.
Introduction
This manual contains detailed instructions and notes on the operation and use of this machine. For your safety and benefit, read this manual carefully before using the machine. Keep this manual in a handy place for quick reference.

Important
Contents of this manual are subject to change without prior notice. In no event will the company be liable for direct, indirect, special, incidental, or consequential damages as a result of handling or operating the machine.

Notes:
Some illustrations in this manual might be slightly different from the machine.
Certain options might not be available in some countries. For details, please contact your local dealer.

Caution:
Use of controls or adjustments or performance of procedures other than those specified in this manual might result in hazardous radiation exposure.

Notes:
The model names of the machines do not appear in the following pages. Check the type of your machine before reading this manual. (For details, see “Machine Types”, About This Machine.)
- Type 1: C2525/DSc525/LD425c/Aficio MP C2500
- Type 2: C3030/DSc530/LD430c/Aficio MP C3000
Certain types might not be available in some countries. For details, please contact your local dealer.
Depending on which country you are in, certain units may be optional. For details, please contact your local dealer.

Two kinds of size notation are employed in this manual. With this machine refer to the inch version.

For good copy quality, the supplier recommends that you use genuine toner from the supplier.

The supplier shall not be responsible for any damage or expense that might result from the use of parts other than genuine parts from the supplier with your office products.
Manuals for This Machine

Refer to the manuals that are relevant to what you want to do with the machine.

❖ About This Machine
Be sure to read the Safety Information in this manual before using the machine.
This manual provides an introduction to the functions of the machine. It also explains the control panel, preparation procedures for using the machine, how to enter text, and how to install the CD-ROMs provided.

❖ General Settings Guide
Explains User Tools settings, and Address Book procedures such as registering fax numbers, e-mail addresses, and user codes. Also refer to this manual for explanations on how to connect the machine.

❖ Troubleshooting
Provides a guide to solving common problems, and explains how to replace paper, toner, staples, and other consumables.

❖ Security Reference
This manual is for administrators of the machine. It explains security functions that the administrators can use to protect data from being tampered, or prevent the machine from unauthorized use. Also refer to this manual for the procedures for registering administrators, as well as setting user and administrator authentication.

❖ Copy/Document Server Reference
Explains Copier and Document Server functions and operations. Also refer to this manual for explanations on how to place originals.

❖ Facsimile Reference
Explains Facsimile functions and operations.

❖ Printer Reference
Explains Printer functions and operations.

❖ Scanner Reference
Explains Scanner functions and operations.

❖ Network Guide
Explains how to configure and operate the machine in a network environment, and use the software provided.
This manual covers all models, and includes descriptions of functions and settings that might not be available on this machine. Images, illustrations, and information about operating systems that are supported might also differ slightly from those of this machine.
❖ Other manuals
  • PostScript3 Supplement
  • UNIX Supplement
  • Manuals for DeskTopBinder Lite
    • DeskTopBinder Lite Setup Guide
    • DeskTopBinder Introduction Guide
    • Auto Document Link Guide

✍ Note
   ☑ Manuals provided are specific to machine types.
   ☑ Adobe Acrobat Reader/Adobe Reader must be installed in order to view the manuals as PDF files.
What You Can Do with This Machine
<Color Functions/Color Adjustments>

Color Copying
You can switch the color copy mode depending on the type of originals used and the desired finish.
See p.41 “Selecting a Color Mode”.

❖ Full Color Copy
Copies using four colors: yellow, magenta, cyan and black.

❖ Black/White Copy
Copies in black and white even if the original is colored.

❖ Convert Colors
See p.42 “Convert Colors”.
Copies by changing a specific color in the original to another color.
❖ **Erase Specified Color**  
See p.43 “Erase Color”.  
Copies by deleting a specific color in the original.

❖ **Color Background**  
See p.44 “Color Background”.  
Copies by adding a color to the whole page.
Stamping on Copies

Copies with the date, page numbers, etc. The stamp color can be yellow, red, cyan, magenta, green, blue, and black.

Printed inserts types:

❖ **Background Numbering**
  See p.106 “Background Numbering”.

❖ **Preset Stamp**
  See p.107 “Preset Stamp”.

❖ **User Stamp**
  See p.109 “User Stamp”.

❖ **Date Stamp**
  See p.114 “Date Stamp”.

❖ **Page Numbering**
  See p.118 “Page Numbering”.
Adjusting Colors

See p.48 “Color Adjustment”.

❖ **Primary Colors**

Colors can be created by combining the 3 primary colors: yellow, magenta and cyan. Black can be made by combining yellow, magenta and cyan, however, as there might be some slight differences, “black” will be expressed using a black toner.

❖ **Adjust Color**

Adjusts the specific colors (yellow, red, magenta, blue, cyan and green) by mixing them with adjacent colors in the color circle. See p.48 “Color Adjustment”.

---

![Diagram of primary colors](image.png)
❖ **Color Balance**
Adjusts the overall color tone of copies.
See p.45 “Color Balance”.

Adjusting Images

See p.49 “Image Adjustment”.

❖ **Sharp/Soft**
Adjust the outline of the image.
See p.50 “Adjusting the sharpness/softness”.

❖ **Contrast**
Adjust the shades of the image.
See p.51 “Adjusting the contrast”.

AMA015S
AMA016S
AMA017S
❖ **Background Density**
Adjust the background density of the image.
See p.51 “Adjusting the background density”.

❖ **Other Adjustments**
  - Adjust U.C.R.
    See p.52 “Adjusting the U.C.R”.
  - Text/Photo Sensitivity
    See p.52 “Adjusting the Text/Photo sensitivity”.
What You Can Do with This Machine

Functions differ depending on machine type and options.

**Reference**
See p.3 “Functions Requiring Optional Configurations”.

## Types of Duplex Copies

- **1 Sided 2 Pages → 2 Sided 1 Page**
  See p.82 “Duplex”.

**Notice**

Do not copy or print any item for which reproduction is prohibited by law. Copying or printing the following items is generally prohibited by local law: bank notes, revenue stamps, bonds, stock certificates, bank drafts, checks, passports, driver's licenses.

The preceding list is meant as a guide only and is not inclusive. We assume no responsibility for its completeness or accuracy. If you have any questions concerning the legality of copying or printing certain items, consult with your legal advisor.

The color samples in this manual may differ slightly from the colors of actual copies.

Colors on color keys or the color circle may differ slightly from the colors of actual copies.

This machine is equipped with a function that prevents making counterfeit bank bills. Due to this function the original images similar to bank bills may not be copied properly.
How to Read This Manual

<size>Note</size>

☒ For proper use of this product, be sure to read About This Machine first.
☒ Supplementary information about the copier mode is described in “Supplementary Information”.

<size>Reference</size>

See p.167 “Supplementary Informations”.

Symbols

This manual uses the following symbols:

⚠️ WARNING:
Indicates important safety notes.
Ignoring these notes could result in serious injury or death. Be sure to read these notes. They can be found in the “Safety Information” section of About This Machine.

⚠️ CAUTION:
Indicates important safety notes.
Ignoring these notes could result in moderate or minor injury, or damage to the machine or to property. Be sure to read these notes. They can be found in the “Safety Information” section of About This Machine.

重中之
Indicates points to pay attention to when using the machine, and explanations of likely causes of paper misfeeds, damage to originals, or loss of data. Be sure to read these explanations.

)size> Note
Indicates supplementary explanations of the machine’s functions, and instructions on resolving user errors.

<size>Reference
This symbol is located at the end of sections. It indicates where you can find further relevant information.

[]
Indicates the names of keys that appear on the machine’s display panel.

[ ]
Indicates the names of keys on the machine’s control panel.
Functions Requiring Optional Configurations

Certain functions require special machine configuration and extra options as follows:
Stack: Internal Shift Tray, 500-sheet finisher, 1000-sheet finisher or booklet finisher
Staple: 500-sheet finisher, 1000-sheet finisher or booklet finisher
Staple (Booklet): booklet finisher
Punch: booklet finisher, Punch kit

📝 Note
☒ The bridge unit and paper tray unit are required when you install the finisher.
Display

The function items displayed serve as selector keys. You can select or specify an item by lightly pressing them.

When you select or specify an item on the display panel, it is highlighted like Auto Density. Keys appearing as cannot be used.

❖ Initial copy display

1. Original function, Image Density and Special Original function.
2. Operational status and messages.
3. You can register up to three frequently used reduce/enlarge ratios other than the fixed reduce/enlarge ratios. See “Shortcut R/E”, General Settings Guide.
4. Numbers of originals scanned into memory, copies set, and copies made.
5. Displays contents of the Shortcut keys. You can register frequently used functions in these keys. See “Customize: Copier Function Key”, General Settings Guide.
7. Displays available functions. Press a function name to display its menu. For example, press [Reduce / Enlarge] to bring up the Reduce/Enlarge menu.
8. A clip mark indicates the currently selected function.
Simplified Display

This section explains how to use the “Simplified Display” and introduces its keys.

You can view the simplified display from the Copier’s initial screen by pressing the [Simplified Display] key.

The simplified display contains main functions only.

Enlarged characters and keys make for easier operation.

❖ Simplified Copier Screen

1. [Key Color]
Use this to intensify the screen contrast by changing the color of the keys.

Not available on the copier default screen.

❖ Note
☐ Press the [Simplified Display] key again to return to the copier default screen.
☐ The simplified display screen does not contain every available key.
User Tools Menu (Copier and Document Server Features)

This section describes items that can be specified on the copier initial screen. Copier initial screen can be displayed by pressing the [User Tools/Counter] key. For details about how to set up these items, see General Settings Guide.

❖ General Features

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Auto Image Density Priority</td>
<td>Set this function to use Auto Image Density when the power is turned on, or modes cleared.</td>
</tr>
<tr>
<td>Original Type Priority</td>
<td>You can select the original type effective when the power is turned on, or modes cleared.</td>
</tr>
<tr>
<td>Original Photo Type Priority</td>
<td>When you select “Text / Photo” or “Photo” in “Original Type Priority”, you can change the settings of the selected original type.</td>
</tr>
<tr>
<td>Original Type Display</td>
<td>You can have the original types shown on the initial display.</td>
</tr>
<tr>
<td>Paper Display</td>
<td>You can choose to have the available paper trays and sizes shown on the initial display.</td>
</tr>
<tr>
<td>Original Orientation in Duplex Mode</td>
<td>You can set the original orientation when making two-sided copies.</td>
</tr>
<tr>
<td>Copy Orientation in Duplex Mode</td>
<td>You can set the copy orientation when making two-sided copies.</td>
</tr>
<tr>
<td>Max. Copy Quantity</td>
<td>You can set the maximum copy quantity.</td>
</tr>
<tr>
<td>Auto Tray Switching</td>
<td>If you load paper of the same size in two or more trays, the machine automatically shifts to the other when the first tray runs out of paper (when Auto Paper Select is selected.) This function is called “Auto Tray Switching”. This setting specifies whether to use Auto Tray Switching or not.</td>
</tr>
<tr>
<td>Tone: Original Remains</td>
<td>The beeper (key tone) sounds if you forget to remove originals after copying.</td>
</tr>
<tr>
<td>Job End Call</td>
<td>You can choose to have the beeper sound when copying is complete.</td>
</tr>
<tr>
<td>Customize: Copier Function Key</td>
<td>You can assign frequently used functions to function keys F1 to F6.</td>
</tr>
<tr>
<td>Customize: Document Server Storage Key</td>
<td>You can register frequently used functions to the Copy Function Keys of F1 to F6. You can also change the registered functions.</td>
</tr>

</table>
This chapter describes the types of originals you can set and how to place originals.

### Originals

This section describes the types of originals that can be placed, paper sizes that are automatically detected, and missing image area.

**Note**
- As the color of markers or highlighters is difficult to reproduce, the copy might not come out depending on the color or a different color might be copied.

### Sizes and Weights of Recommended Originals

The following describes recommended paper sizes and non-recommended originals for the ADF:

- **Metric version**

<table>
<thead>
<tr>
<th>Where original is placed</th>
<th>Original size</th>
<th>Original weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exposure glass</td>
<td>Up to A3</td>
<td>-</td>
</tr>
<tr>
<td>ADF</td>
<td>One-sided originals: A3 - B5 JIS (Japanese Industrial Standard)</td>
<td>40-128 g/m² (35-110 kg)</td>
</tr>
<tr>
<td></td>
<td>Two-sided originals: A3-B6 JIS (Japanese Industrial Standard)</td>
<td>52-105 g/m² (45-90 kg)</td>
</tr>
</tbody>
</table>

- **Inch version**

<table>
<thead>
<tr>
<th>Where original is placed</th>
<th>Original size</th>
<th>Original weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exposure glass</td>
<td>Up to 11” × 17”</td>
<td>-</td>
</tr>
<tr>
<td>ADF</td>
<td>One-sided originals: 11” × 17”</td>
<td>11-34 lb.</td>
</tr>
<tr>
<td></td>
<td>Two-sided originals: 11” × 17”</td>
<td>14-28 lb.</td>
</tr>
</tbody>
</table>

**Note**
- About 50 originals can be placed in the ADF.
- The weight range for originals in the Mixed mode is 52-81 g/m² (13.8-21.5 lb).
Non-compatible originals for the Auto Document Feeder

Placing the following types of originals in the ADF can cause paper misfeeds or light & black lines or result in damage to the originals. Place these originals on the exposure glass instead.

- Originals other than those specified on “Sizes and Weights of Recommended Originals”.
- Stapled or clipped originals
- Perforated or torn originals
- Curled, folded, or creased originals
- Pasted originals
- Originals with any kind of coating, such as thermal fax paper, art paper, aluminum foil, carbon paper, or conductive paper
- Originals with perforated lines
- Originals with indexes, tags, or other projecting parts
- Sticky originals such as translucent paper
- Thin, highly flexible originals
- Thick originals such as postcards
- Bound originals such as books
- Transparent originals such as OHP transparencies or translucent paper
- Originals that are still wet with ink or white-out.

Note

The original might become dirty if it is written with a pencil or a similar tool.

Sizes Detectable by the Auto Paper Select

Sizes detectable by the exposure glass and ADF are:

Metric version

<table>
<thead>
<tr>
<th>Size Location of the original</th>
<th>A3</th>
<th>B4 JIS</th>
<th>A4</th>
<th>B5 JIS</th>
<th>A5</th>
<th>B6 JIS</th>
<th>11” x 17”</th>
<th>81/2” x 11”</th>
<th>8” x 13”</th>
<th>8K</th>
<th>16K</th>
</tr>
</thead>

*1 If you want make 5½” × 8½” size detectable, consult your service representative.

*2 You can select from 8½” × 13” to 8½” × 14”, from 11” × 15” to 11” × 17”, from 8” × 10” to 8½” × 11”, 7½” × 10½” to 8½” × 11” with User Tools (System Settings).

❖ Exposure glass

![Exposure glass diagram]

❖ ADF

![ADF diagram]

 BASIS Note

❑ When you copy custom size originals, make sure you specify the size of the originals. If not, the image may not be copied properly.

❖ Reference

See p.23 “Custom sizes”. 
Sizes difficult to detect

It is difficult for the machine to detect the sizes of the following originals, so select the paper size manually:

- Originals with indexes, tags, or other projecting parts
- Transparent originals such as OHP transparencies or translucent paper
- Dark originals with a lot of text and drawings
- Originals which partially contain a solid image
- Originals which have solid images at their edges

Missing image area

Even if you place originals in the ADF or on the exposure glass correctly, 3 mm (0.1”) margins on all four sides might not be copied.
Placing Originals

This section describes the procedure for placing originals on the exposure glass and in the ADF.

Take care to place originals after any correction fluid and ink has completely dried. Not taking this precaution could cause marks on the exposure glass that will be copied onto paper.

Note
- For original sizes you can set, see “Originals”.

Reference
- See p.11 “Originals”.

Original Orientation

You can set the original orientation in the following ways. When placing the original on the exposure glass, set it facing downwards.

- Standard orientation
  - Select this function when the original orientation is the same as the copy paper orientation.

- 90° turn
  - Use this function when you want to copy A3, B4, JIS, or 11” × 17” size originals. The machine rotates the copy image by 90° and you can make copies as you want. This is useful for copying large originals with the Staple, Duplex, Combine or Stamp functions.
For example, to copy A3 or 11” × 17” originals with the Staple function selected:

1 Press [Special Original].

2 Select the original orientation ( or ), and then press [OK].

Note
- It is recommended to use this function together with the [Auto Paper Select] or [Auto Reduce / Enlarge] function.
Placing Originals on the Exposure Glass

Place originals on the exposure glass.

Important
- Do not lift the exposure glass cover or ADF forcefully. Otherwise, the cover of the ADF might open or be damaged.

1 Lift the exposure glass cover or ADF.
   Be sure to lift the exposure glass cover or ADF by more than 30 degrees. Otherwise, the size of the original might not be detected correctly.

2 Place the original face down on the exposure glass. The original should be aligned to the rear left corner.
   Start with the first page to be copied.

   ![Diagram of exposure glass with positioning marks]
   - Positioning mark
   - Left scale

3 Lower the exposure glass cover or ADF.

Placing Originals in the Auto Document Feeder

Place originals in ADF.

Settings should be made in the following situations:

- When placing originals consisting of more than 50 pages:
  See “Batch mode”.

- When placing originals one by one:
  See “SADF mode”.

- When copying originals of various sizes:
  See “Mixed size mode”.

- When placing custom size originals:
  See “Custom sizes”.
Placing Originals

1 Adjust the guide to the original size.

2 Set the aligned originals face up into the ADF.
   Do not stack originals beyond the limit mark.
   The last page should be on the bottom.
   Be sure not to block the sensor or load the original untidily. Doing so may cause the machine to detect the size of the scanned image incorrectly or display a paper misfeed message. Also, be sure not to place originals or other objects on the top cover. Doing so may cause a malfunction.

Note

- Straighten curls in the originals before placing them on the ADF.
- To prevent multiple sheets from being fed at once, fan the original before placing it on the ADF.
- Set the original squarely.
Batch mode

In Batch mode, the machine copies an original of more than 50 pages as one document, even if it is placed on the ADF in parts.

1. Press [Special Original].

2. Select [Batch] and then press [OK].

3. Place the first part of the original, and then press the [Start] key.

4. After the first part of the original has been fed, place the next part, then press the [Start] key.

Note
- When [SADF] is displayed in step 2, set the Batch mode with [Switch to Batch]. See “Switch to Batch”, General Settings Guide.
- To copy subsequent originals in this mode, repeat step 4.
- When the Sort, Combine or 1 Sided→2 Sided mode has been set, press the [#] key after all originals have been scanned.
**SADF mode**

In SADF mode, even when an original is placed page by page in the ADF, each page is automatically fed when placed.

**Important**
- You should make a setting so that [SADF] will be displayed when you press [Special Original]. See “Switch to Batch”, General Settings Guide.

1. **Press [Special Original].**
   ![Special Original button](image)

2. **Press [SADF], and then press [OK].**

3. **Place one page of an original, and then press the [Start] key.**

4. **When the machine instructs you to place another original, place the next page.**
   The second and subsequent pages will be fed automatically without pressing the [Start] key.

**Note**
- When the Sort, Combine or 1 Sided→2 Sided mode has been set, press the [#] key after all originals have been scanned.
- See “SADF Auto Reset”, General Settings Guide.
Mixed size mode

When placing different size originals of the same width in the ADF at the same time, the machine automatically checks the size of the originals and makes copies.

Important

When placing originals of different sizes in the ADF and making copies without using the Mixed size mode, paper might become jammed or parts of the original image might not be copied.

The sizes of the originals that can be placed in this mode are follows:

- Metric version
  - A3, B4 JIS, A4, B5 JIS
- Inch version
  - 11” × 17”, 8 1/2” × 14”, 8 1/2” × 11”

1 Press [Special Original].

2 Select [Mixed Sizes], and then press [OK].

3 Align the rear and left edges of the originals as shown in the illustration.

   1
   2

   ① Place the originals into the ADF
   ② Vertical size

4 Adjust the guide to the widest original size.

5 Place originals in ADF.

6 Press [Start] key.
Original size

Specify the size of the originals.

Regular sizes

Select the size of the originals from the regular sizes.

1. Press [Special Original].

2. Press [Original Size].

3. Press [Regular Size].

4. Select the size of original, and then press [OK].

5. Place the original, and then press the [Start] key.
Custom sizes

When placing custom size originals in the ADF, specify the size of the originals.

Important

☐ Paper that has a vertical length of 128–297 mm (5.1”-11.6”) and a horizontal length of 128–432 mm (5.1”-17”) can be placed with this function.

1 Press [Special Original].

2 Press [Original Size].

3 Press [Custom Size].

4 Enter the horizontal size of the original with the number keys, and then press [#] key.

5 Enter the vertical size of the original with the number keys, and then press [#] key.

6 Press [OK].

7 Place the originals, and then press the [Start] key.

Note

☐ If you make a mistake in step 4 or 5, press [Clear] or [Clear/Stop] in step 4, and then enter the value again.
2. Copying

This chapter describes the procedure for making copies in various modes.

**Basic Procedure**

This section describes the basic procedure for making copies.

**Important**

- When User Code Authentication is set, enter your user code (up to eight digits) with the number keys so that the machine accepts copy jobs. See “User Authentication Management”, General Settings Guide.

- When Basic Authentication, Windows Authentication, LDAP Authentication, or Integration Server Authentication is set, enter your login user name and user password so that the machine accepts copy jobs. Ask the user administrator for the login user name and login password. For details, see “When the Authentication Screen is Displayed”, About This Machine.

1. Make sure “Ready” appears on the screen.

   If any other function is displayed, press the [Copy] key on the left side of the control panel.

   - **Initial copy screen**

2. Make sure no previous settings remain.

   When there are previous settings remaining, press the [Clear Modes] key and enter the setting again.

3. Place your originals.

5. Enter the number of copies using the number keys.

   The maximum copy quantity that can be set is 999.
Press the [Start] key.
The machine starts copying.
When placing originals on the exposure glass, press the [ ] key after all originals are scanned.
Copies are delivered face down.

Note
☐ Always log off when you have finished using the machine to prevent unauthorized users from using the machine.
☐ To stop the machine during a multi-copy run, press the [Clear/Stop] key.
☐ To cancel all copy jobs and return the machine to the default condition, press the [Clear Modes] key.
☐ To clear entered values, press the [Clear/Stop] key or [Cancel] on the screen.
☐ To confirm settings, press the [Check Modes].

Interrupt Copy
Use this function if you want to interrupt a long copy job to make urgently needed copies.

Important
☐ You cannot use the Interrupt Copy function when fax originals are being scanned or the scanner function is being used.

Press the [Interrupt] key.

1. Press the [Interrupt] key.
2. The machine stops scanning. Remove the originals that were being copied.
3. Place the originals you want to copy.
4. Press the [Start] key.
   The machine starts making copies.
5. When copying is complete, remove the originals and copies.
6. Press the [Interrupt] key again.
   The interrupt key indicator goes off.
7 Replace the originals that you were copying, and then press the [Start] key. Following message “Reset n originals.”, replace the originals that you were copying.

Note
- The previous copy job settings are restored. Simply press the [Start] key to continue copying from where it left off.

Left Original Beeper

The beeper sounds and an error message is displayed when you leave your originals on the exposure glass after copying.

Note
- For details, see “Tone: Original Remains”, General Settings Guide.

Job Preset

You can set up the next copy content during copying. If a long copy job is in progress and you do not want to wait for it to finish, you can use this function to set up the next copy job in advance. When the current copy job is finished, the next job will start automatically.

2 Be sure message “Ready” appears, and then set up the next copy job.

3 Place the originals, and then press the [Start] key.
   All originals are scanned.
   When the preset job is complete, a job preset confirmation dialog box appears.

4 Press [Exit].
   You return to the copy screen.
   After the current copy job, the next copy job starts automatically.
Note

You can switch the display to the current copy job by pressing [To Copying Screen]. You can switch the display to the preset job by pressing [To Reserv. Screen].
Job List

Jobs printed using Copy, Document Server, or Printer mode are temporarily stored in the machine, and then executed in order. The Job List function allows you to manage these jobs. For example, you can cancel incorrect job settings or print an urgent document.

⚠️ Note

- You cannot use the Job List function when Interrupt Copy is active.
- Documents printed using the facsimile function and scanner function are not displayed in the job list.
Job List screen

This section explains displays and icons that appear in the Job List screen.
The Job List screen varies depending on whether [Job Order] is selected with Print Priority for the System Settings. For details about the setting procedure, see “Print Priority”, General Settings Guide.

❖ When [Job Order] is not selected:
The job list is displayed for each of the functions.

❖ When [Job Order] is selected:
The job list is displayed for all functions in the order of print jobs.

① Switches between job lists for each function.
② Switches between [Current / Waiting Job List] and [Job History].
③ Displays reserved job numbers.
④ Displays the function used to print jobs.
  - : Job printed using copy function.
  - : Job printed using printer function.
  - : Job printed using Document Server function.
  - : Job printed using DeskTopBinder.
  - : Job printed using Web Image Monitor.
Checking jobs in the print queue

You can check the contents of jobs in the print queue.

1. Press [Job List].
2. Select the job you want to check.

3. Press [Details], and then check the contents.
4. Press [Exit].

Changing the order of jobs

You can change the order in which print jobs in the job list are served:

1. Press [Job List].
2. Select the job whose order you want to change.

3. Press [Change Order].
4. Change the order using [Top], [Previous], or [Next].
3 Press [OK].

### Holding print jobs

The machine holds jobs that are queued and currently printing.

1. Press [Job List].
2. Select the job(s) to hold.

3. Press [Suspend Printing].

### Deleting jobs

You can delete a job that is queued or currently printing.

1. Press [Job List].
2. Select the job you want to delete.

3. Press [Delete Reservation].
4. Press [Yes].

**Note**
- To delete multiple print jobs, select them in step 2.
Checking Job History

You can view the history contents of printed jobs.

1 Press [Job List].

2 Press [Job History].
   A list of completed print jobs appears.

3 Press [Details] to check the contents of the displayed jobs.

4 Press [Exit].
Copying from the Bypass Tray

Use the bypass tray to copy onto OHP transparencies, adhesive labels, translucent paper, postcards and copy paper that cannot be loaded in the paper trays.

Important

- When the duplex unit is attached, the default is [1 Sided → 2 Sided]. When copying from the bypass tray, select [1 Sided] for copying in [Dup./Combine/Series] (for example [1 Sided → 1 Sided] or [2 Sided → 1 Sided]). You can change the initial settings. See “Programming Defaults in Initial Display”.
- Paper has a vertical length of 90-305 mm (3.6-12 inch) and a horizontal length of 148-457.2 mm (5.9-18 inch) can be copied from the bypass tray.
- The machine can detect the following sizes as regular size copy paper: A3\, A4\, A4\, 8” × 13”. If you want to use the size of paper other than the above, be sure to specify the size.
- When copying on OHP transparencies or paper heavier than 128 g/m² (about 90 kg, 34 lb.), you need to specify the type and size of paper with “Special Original”.
- The maximum number of sheets you can load at the same time depends on paper type. The maximum number of sheets should not exceed the upper limit.
- When copying paper lighter than 59g/m² or tracing paper, you need to specify the paper type.
- When paper larger than 433 mm (17.1 inch) in size is used, the paper may become wrinkled, may not be fed into the machine, or may cause paper jams.

[Bypass Tray Usage] key

Press [Bypass Tray Usage] to display a description on using the bypass tray.
1 Open the bypass tray.

2 Insert the paper face-down until you hear the beep, and then align the paper guide to the paper size.
   If the guides are not flush against the copy paper, images might be skewed or paper misfeeds might occur.
   Do not stack paper over the limit mark, otherwise images might be skewed or paper misfeeds might occur.
   Swing out the extender to support paper sizes larger than A4 or 8 1/2” × 11”.
   Fan paper to get air between the sheets and avoid a multi-sheet feed.

3 Press [Bypass], and then press the [ # ] key.

4 Select the size and type of the paper.

5 Place the paper, and then press the [Start] key.

6 When the copy job is finished, press the [Clear Modes] key to clear the settings.

Note

☐ When the Sort function is selected, press the [ # ] key after all originals have been scanned.

☐ When the beeper is turned off, it will not sound if you insert paper into the bypass tray. See “Panel Tone”, General Settings Guide.

Reference

See p.142 “Programming Defaults in Initial Display”.
When copying onto Regular Size Paper

Makes copies onto regular size paper from the bypass tray.

1. Open the bypass tray, and then align the paper guide to the paper size.
2. Insert the paper face-down until you hear the beep.
3. Press the [ # ] key.
4. Press [Select Size].
5. Select the paper size.
When copying onto Custom Size Paper

Makes copies onto custom size paper from the bypass tray.

1 Open the bypass tray, and then align the paper guide to the paper size.
2 Insert the paper face-down until you hear the beep.
3 [ # ] key.
4 Press [Custom Size].

5 Enter the horizontal size of the original with the number keys, and then press [ # ].
6 Enter the vertical size of the original with the number keys, and then press ( # ).
7 Press [OK].

Note
☐ If you make a mistake in step 5 or 6, press [Clear] or [Clear/Stop] key, and then enter the value again.
☐ To register the custom size entered in step 6, press [Program] and then press [Exit] in the confirmation screen.
When copying onto OHP Transparencies or Thin Paper

When copying onto OHP transparencies or thin paper, select the type and size of paper.

Important

- We recommend that you use specified OHP transparencies.
- OHP transparencies must be loaded face down in the tray with the notched corner of the sheet in the appropriate corner of the tray.
- To prevent multiple sheets from being fed at once, fan paper before placing it on the tray.
- When copying onto OHP transparencies, remove copied sheets one by one.

1. Open the bypass tray, and then align the paper guide to the paper size.
2. Insert the paper face down until you hear the beep.
3. Press the [\#] key.
4. Select paper type ([OHP (Transparency)] or [Thin Paper]) in the special paper settings.

5. Select the paper size, and then press [OK] to return to the initial display.
6. Place the paper, and then press the [Start] key.
7. When the copy job is finished, press the [Clear Modes] key to clear the settings.

Note

- For OHP transparencies or thin paper, print speed is slower when compared to printing on plain paper.
When copying onto Thick Paper

When copying onto thick paper, select the type and size of paper. To prevent multiple sheets from being fed at once, fan paper before placing it on the tray.

1. Open the bypass tray, and then align the paper guide to the paper size.
2. Insert the paper face down until you hear the beep.
3. Press the [#] key.
4. Press [Select Thick Paper].
5. Select paper type (one of [Thick Paper 1], [Thick Paper 2], [Thick Paper 3], [Thick 1: Dup.Back], [Thick 2: Dup.Back], and [Thick 3: Dup.Back]), and then press [OK].
   Select [Thick Paper 1] when copying paper lighter than 169 g/m² (45.0 lb.) or less.
   Select [Thick Paper 2] when copying paper lighter than 219 g/m² (58.3 lb.) or less.
   Select [Thick Paper 3] when copying paper lighter than 253 g/m² (67.3 lb.) or less.

6. Select the paper size.
8. Place the paper, and then press the [Start] key.
9. When the copy job is finished, press the [Clear Modes] key to clear the settings.

Note
- If Internal Tray 1 is not selected for the output paper tray, copies are delivered to it.
- For thick paper, print speed is slower when compared to printing on plain paper.
When Copying onto Envelopes

1. Open the bypass tray, and then insert the envelopes with the side you want to copy face down until the beeper sounds.

2. Align the paper guide to the envelope side.

3. Press the [ # ] key.

4. Press [Select Thick Paper].

5. Select [Thick Paper 1], and then press [OK].

6. Select the paper size.

8. Place the originals, and then press the [Start] key.

9. When the copy job is finished, press the [Clear Modes] key to clear the settings.

Note

- When placing an original on the exposure glass, place the original with the bottom line aligned to the left scale.
- When placing originals in the ADF, place the originals with the bottom line inserted in the ADF.
- When inserting envelopes, be sure to unfold the flaps and position them opposite to the paper feed direction.

Reference

For details about supported size of envelope, see “Recommended Paper Sizes and Types”, About This Machine.
Color Functions

This section describes functions that are used for color copying.

Selecting a Color Mode

Select a color (or colors) that suits your originals and copying requirements.

For color images, refer to “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

The following three color modes are available:

❖ Auto Color Selection
  Judges the color of the original automatically, and copies either in full color or black/white.

❖ Full Color Copy
  Copies by overlaying yellow, magenta, cyan and black.

❖ Black/White Copy
  Copies in black regardless of the color of the original.

1 Select the type of color.

Note

❑ For color images, refer to “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

❑ To use a user color, you need to register it beforehand. For details, see “Registering Colors”.

Reference

See p.iii “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

See p.53 “User Color”.

Convert Colors

Copies by changing the Color in the original to a different Color.

Important
- It is possible to specify up to 4 Colors.
- To use this function, [Full Color] must be selected.
- If any other Color mode is selected, you cannot select [Convert Color].

1. Press [Full Color].

2. Press [Edit / Color].

3. Make sure that [Color] is selected before pressing [Convert Color].

4. Select any one item from [Conversion 1] to [Conversion 4].

5. Selects the Color to be converted.
Selects the new Color to be converted.
You can adjust the density of each Color in four steps.
To select User Color, press [User Color], and then select the Color.

After selecting all Colors to be converted, press [OK] three times.

Place the originals, and then press the [Start] key.

Note
- The width of the Color to be converted can be adjusted in five levels. If the Color width is set to [Wider] and red has been specified, Colors, which are close to magenta or orange, will also be converted. The Color width can be adjusted in User Tools. This adjustment will be valid in “Erase Color”. See “Color Sensitivity”, General Settings Guide.
- When you want to change the converted Color in step 4, press from [Conversion 1] to [Conversion 4] and make the selection again.
- When changing between more than two Colors, repeat steps 4 to 4.
- The full Color counter will advance to “1”.

Erase Color
Copies by erasing a certain Color in the image of the original.

1. Press [Edit / Color].

2. Make sure that [Color] is selected before pressing [Erase Color].

3. Select the Color to be erased.
   It is possible to select up to 4 Colors.

4. After selecting all Colors to be erased, press [OK] twice.

5. Place the originals, and then press the [Start] key.
Note

- The width of the Color to be deleted can be adjusted in five levels. If the Color width is set to [Wider] and red has been specified, Colors, which are close to magenta or orange, will also be deleted. The Color width can be adjusted in User Tools. See “Color Sensitivity”, General Settings Guide.
- You can cancel the selection by pressing the selected (highlighted) key in step 3.
- When the Full Color Copy is selected, the full Color counter will advance to “1”. When the Black/White is selected, the mono-Color counter will advance to “1”.

Color Background

Copies by adding a Color in the whole page.

Important

- Since the Color Background function overprints the entire original, the Color of the image may change.

1. Press [Edit / Color].

2. Make sure that [Color] is selected before pressing [Color Background].

3. Select the background Color, and then press [OK] twice.

   You can adjust the density of each Color in four steps. To select User Color, press [User Color], and then select the Color.

4. Place the originals, and then press the [Start] key.

Note

- You can cancel the selection by pressing the selected (highlighted) key in step 3.
- When the Full Color Copy is selected, the full Color counter will advance to “1”. When the Black/White is selected, the mono-Color counter will advance to “1”.
Color Balance

Adjusts the overall Color tone when the overall copy is reddish or bluish.

1. Press [Edit / Color].

2. Make sure that [Color] is selected before pressing [Adjust Color].

3. Make sure that [Color Balance] is selected.

4. Adjust the Color balance by pressing [Lighter] or [Darker].

Note

- The adjusted settings will be deleted and the initial values will be reset, when Auto Clear has been performed, when the [Clear Modes] key has been pressed or when the power has been turned off.

- For types and examples of the image adjustment functions, see “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

Reference

See p.iii “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

Color Balance Program

You can also store the Color balance setting as a Color balance program and recall it when you want to use it.

You can store up to three programs.

Note

☐ If you want to change the registered settings, register them one more time. In this case, the previously registered contents will be changed.

Registering the adjusted Color balance

Register adjusted Color balance settings so that you can use them later.

1 Change the Color balance.

2 Press [Program Color Balance].

3 Press [Program].

4 Select a program number ([1]-[3]) for this setting.

The Color balance setting will be registered in the selected number.

5 Press [OK] twice.

Note

☐ If you select the program number key where the ◊ is displayed in step 4, the previously registered settings will change (will be overwritten).

☐ For details about how to adjust the Color balance, see “Color Balance”.

Reference

See p.iii “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

See p.45 “Color Balance”.

Changing the registered contents

Changes contents stored in Color balance programs.

1. Press [Edit / Color].
2. Make sure that [Color] is selected before pressing [Adjust Color].
3. Make sure that [Color Balance] is selected before pressing [Program Color Balance].

4. Select the program number ([1]-[3]) to be changed.
   The programmed Color balance appears.
5. Change the registered contents.
6. After the programmed contents are changed, press [Program Color Balance].
7. Press [Program], and then press the program number to be overwritten.
8. Press [Yes].
   The program is overwritten.

Copying with the registered contents

Recalls and copies contents stored in Color balance programs.

1. Press [Edit / Color].
2. Make sure that [Color] is selected before pressing [Adjust Color].
3. Make sure that [Color Balance] is selected before pressing [Program Color Balance].
4. Make sure that [Recall] is selected, and then select the program number registered by the Color balance to be used.
Copying

6 Place the originals, and then press the [Start] key.

⚠️ Note
- After copying has been completed, pressing the [Clear Modes] key deletes the recalled contents.

Deleting the registered contents

Deletes contents stored in Color balance programs.

1 Press [Edit / Color].
2 Make sure that [Color] is selected before pressing [Adjust Color].
3 Make sure that [Color Balance] is selected before pressing [Program Color Balance].
4 Press [Delete], and then select the program number registered by the Color balance to delete.
5 Press [Yes].
6 Press [OK] twice.

Color Adjustment

Adjusts the specific Colors (yellow, red, magenta, blue, cyan and green) by mixing them with adjacent Colors in the Color circle.
You can adjust up to three Colors from yellow, red, magenta, blue, cyan, or green.
This function is not available if Black/White is selected.

1 Press [Edit / Color].
2 Make sure that [Color] is selected before pressing [Adjust Color].
3 Press [Adjust Color].
4 Select the Colors you want to adjust.
You can select up to 3 Colors.

Select the Colors you want to adjust.
You can select up to 3 Colors.

5 Adjust the Color tastes using [←] or [→].
Refer to the Color circle on the control panel.

6 Press [OK] twice.

Note
- The adjusted settings will be deleted and the initial values will be reset, when Auto Clear has been performed, when the [Clear Modes] key has been pressed or when the power has been turned off.
- For types and examples of the image adjustment functions, see “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

Reference
See p.iii “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

Image Adjustment

The following five types of image adjustments are available:

- **Sharp/Soft**
  Adjusts the outline of an image.

- **Contrast**
  Adjusts the shades of an image.

- **Background Density**
  Adjusts the background density of an image.

- **Adjust U.C.R**
  Adjusts the amount of black toner to express vividly the black areas in an image.

- **Text/Photo Sensitivity**
  Adjusts the standard level in judging the image in the text and photo part when using “Text / Photo”.

Press [Edit / Color].

Make sure that [Color] is selected before pressing [Adjust Color].

Press [Copy Quality].

Adjusts the settings.

Note
- [Sharp / Soft], [Contrast], and [Background Density] can each be adjusted, however, their adjustments can affect the level of other adjustment functions.
- The adjusted settings will be deleted and the initial values will be reset, when Auto Clear has been performed, when the [Clear Modes] key has been pressed or when the power has been turned off.
- For types and examples of the image adjustment functions, see “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

Reference
- See p.iii “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

Adjusting the sharpness/softness

Adjusts the outline of an image.

1. **Adjust by pressing [Soft] or [Sharp].**

2. Press [OK].
Adjusting the contrast

Adjusts the shades of an image.

1 Adjust by pressing [Low] or [High].

<table>
<thead>
<tr>
<th>Adjust Color</th>
<th>Adjust each Item</th>
</tr>
</thead>
<tbody>
<tr>
<td>Color Balance</td>
<td>Adjust Color</td>
</tr>
<tr>
<td>Sharp / Soft</td>
<td>Soft</td>
</tr>
<tr>
<td>Contrast</td>
<td>Low</td>
</tr>
<tr>
<td>Background Density</td>
<td>Lighter</td>
</tr>
<tr>
<td>Adjust U.C.R.</td>
<td>Lighter</td>
</tr>
</tbody>
</table>

2 Press [OK].

Adjusting the background density

Adjusts the background density of an image.

1 Adjust by pressing [Lighter] or [Darker].

<table>
<thead>
<tr>
<th>Adjust Color</th>
<th>Adjust each Item</th>
</tr>
</thead>
<tbody>
<tr>
<td>Color Balance</td>
<td>Adjust Color</td>
</tr>
<tr>
<td>Sharp / Soft</td>
<td>Soft</td>
</tr>
<tr>
<td>Contrast</td>
<td>Low</td>
</tr>
<tr>
<td>Background Density</td>
<td>Lighter</td>
</tr>
<tr>
<td>Adjust U.C.R.</td>
<td>Lighter</td>
</tr>
</tbody>
</table>

2 Press [OK].

Note

- Adjustments should be made lightly when copying dark textured originals, such as newspaper or recycled paper.
- Adjustments should be made darker when darkening the Color of markers or highlighters. However, as the Color of highlighters is difficult to reproduce, the copy might not come out depending on the Color or a different Color might be copied.
Adjusting the U.C.R

Adjusts the amount of black toner to express vividly the black areas in an image.

1 Adjust by pressing [Lighter] or [Darker].

2 Press [OK].

Adjusting the Text/Photo sensitivity

Adjusts the standard level in judging the image in the text and photo part when using “Text / Photo”.

1 Adjust by pressing [Text] or [Photo].

2 Press [OK].

Note

Make sure to set to “Text” when parts of the texts are faded or are not clear. Set to “Photo” when the outline of photos becomes dark.
User Color

You can register User Colors made by adjusting the density of yellow, magenta, cyan, and black. You can also give a name to the Colors you register, and print out a list of user colors.

You can create Colors by:

- Adjusting the density of each Color based on the density of a chosen basic Color.
- Directly specifying the density of each Color using the number keys.

Note

- Adjust the Colors to be registered so that the total of yellow, magenta, cyan and black is under 400%.
- When copying using user colors, the fine shades might vary depending on the condition of the machine.
- In order to correctly reproduce originals, the values, which have been input, are corrected inside the machine, and copies are made using the best suitable values. Therefore, there might be slight Color differences when copying using “Text” and when using “Photo”.
- Up to 15 Colors can be registered.
- Sample prints of user colors can also be made on an A4, 8 1/2” × 11”, A3, or 11” × 17” size page.
- When printing a list of user colors, the full Color counter will advance to “1”.
- For types and examples of the image adjustment functions, see “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

Reference

See p.iii “What You Can Do with This Machine <Color Functions/Color Adjustments>”.

Adjusting Colors Based on Selected Color

Creates Colors by adjusting the density of each Color based on the density of a chosen basic Color.

1. Press [Edit / Color].
2 Press [Color], and then press [User Color].

3 Select the number ([1]-[15]) for the Color you want to register.

4 Select the Color to be used as a base for registration from the basic and user colors.

The density of each Color for the selected Color is displayed.

To select User Color, press [User Color], and then select the Color.

5 Select the Color whose density is to be specified, and then specify the density in percentages using [+] or [−].

6 Check names and densities of each Color, and press [OK].

7 Press [OK].
Note

» It is also possible to specify density by pressing [Adjust with Number Keys] in step 3.

» Selecting a user color key that is indicated by a solid line will change (overwrite) the contents of that Color.

Creating Colors by Directly Specifying the Density of Each Color with Number Keys

Creates Colors by directly specifying the density of each Color using the number keys.

1. Press [Edit / Color].
2. Press [Color], and then press [User Color].
3. Select the number ([1]-[15]) for the Color you want to register.
4. Press [Custom Setting].
5. Select the Color whose density is to be specified.
6. Enter the density (%) using the number key. When the densities of each Colors have been specified, press [#] key.
7. Check names and densities of each Color, and press [OK].
   Repeat steps 5-7 if you want to specify the density of multiple Colors.
8. Press [OK].

Note

» It is also possible to specify density by pressing [Adjust with [+] [-]] and then using [+ ] and [- ] in step 6.

» Selecting a user color key that is indicated by a solid line will change (overwrite) the contents of that Color.

Renaming a Color

Renames a user color.

1. Press [Change Name].
2. Enter the name of the Color (up to 16 characters), and then press [OK].
3. Press [OK].
Deleting User colors

Deletes user colors.

Important

- You cannot delete Colors registered in the program or user colors that are currently being used.

1. Press [Edit / Color].
2. Press [Color], and then press [User Color].
3. Press [Delete].
4. Select the number of the user color (whose key is indicated by a solid line) you want to delete.
5. Press [Yes].

Printing a List of user colors

Prints a list of user colors.

1. Press [Edit / Color].
2. Press [Color], and then press [User Color].
3. Check the copy paper, and then press [Print Sample of User Color].

   The list of user colors is output in the internal tray.

Note

- The list will be copied on a A4, 8 1/2” × 11”, A3 or 11” × 17” sheet.
Copier Functions

This section describes the copy functions.

Adjusting Copy Image Density

There are three types of adjustment available.

❖ **Auto Image Density**
   The machine automatically adjusts the image density by scanning the densities of originals. Dark texture originals (such as newspaper or recycled paper) will be copied so that background will not be reproduced.

❖ **Manual image density**
   You can adjust the density of the overall original in nine steps.

❖ **Combined auto and manual image density**
   Adjusts the density of an image only for dark texture originals.

Auto image density

The machine automatically adjusts the image density by scanning the densities of originals. Dark texture originals (such as newspaper or recycled paper) will be copied so that background will not be reproduced.

1. Make sure that [Auto Density] is selected.
Manual image density

You can adjust the density of the overall original in nine steps.

2. Press [◄] or [►] to adjust the image density. The density indicator “▼” moves.

Combined auto and manual image density

Adjusts the density of an image only for dark texture originals.

1. Make sure [Auto Density] is selected.

2. Press [◄] or [►] to adjust the density. The density indicator “▼” moves.
Selecting the Original Type Setting

Select one of the following 6 types to match your originals:

❖ Text
   Select this mode when your originals contain only text (no pictures).

❖ Text/Photo
   Select [Text / Photo] when your originals contain photographs or pictures with text.

❖ Photo
   Delicate tones of photographs and pictures can be reproduced with this mode.
   • When copying developed photographs:
   • When copying photographs or pictures that are printed on paper (e.g. magazines):
   • When copying copies or originals generated by printers:

❖ Generation Copy
   If your originals are copies (generation copies), the copy image can be reproduced sharply and clearly.
   Select this type from [Others] when Original Type Display (Copier / Document Server Features) has been set to Hide.

❖ Pale
   The machine scans originals with settings suitable for originals that have lighter lines written in pencil, or for faint copied slips. The faint lines will be clearly copied.
   Select this type from [Others] when Original Type Display (Copier / Document Server Features) has been set to Hide.

❖ Map
   The machine scans originals with settings suitable for map originals.
   Select this type from [Others] when Original Type Display (Copier / Document Server Features) has been set to Hide.

Select the original type, and then press [OK].
Selecting Copy Paper

There are two ways to select copy paper:

❖ Auto Paper Select
   The machine selects a suitable size of copy paper automatically based on original size and reproduction ratio.

❖ Manual Paper Select
   Choose the tray containing the paper you want to copy onto: a paper tray, bypass tray or LCT.

See the following table for copy paper sizes and orientations that can be used with Auto Paper Select (when copying at a ratio of 100%):

❖ Metric version

<table>
<thead>
<tr>
<th>Where original is set</th>
<th>Paper size and orientation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exposure glass</td>
<td>A3, B4 JIS, A4, B5 JIS, 8” × 13”</td>
</tr>
<tr>
<td>ADF</td>
<td>A3, B4 JIS, A4, B5 JIS, A5, 11 × 17, 8 1/2” × 11”, 8” × 13”, 8K, 16K</td>
</tr>
</tbody>
</table>

❖ Inch version

<table>
<thead>
<tr>
<th>Where original is set</th>
<th>Paper size and orientation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exposure glass</td>
<td>11” × 17”, 8 1/2” × 14”, 8 1/2” × 11”</td>
</tr>
<tr>
<td>ADF</td>
<td>A3, A4, 11” × 17”, 8 1/2” × 14”, 8 1/2” × 11”, 5 1/2” × 8 1/2”, 10” × 14”, 7 1/4” × 10 1/2”</td>
</tr>
</tbody>
</table>

❖ Note
   □ See “Original Type Display” and “Adjust Color Image”, General Settings Guide.

❖ Note
   □ Only the paper trays set to [No Display] or [Recycled Paper] in Paper Type in Tray Paper Setting in System Settings and also set to [Yes] in Apply Auto Paper Select can be selected in Auto Paper Select mode. See “Paper Type: Tray 1-4”, General Settings Guide.

❖ Reference
   See p.12 “Non-compatible originals for the Auto Document Feeder”. 
Auto Paper Select

The machine selects a suitable size of copy paper automatically based on the original size and the reproduction ratio.

1 Make sure that Auto Paper Select is selected.

Trays with a key mark ( ) will not be automatically selected. See “Paper Type”, General Settings Guide.

Manual Paper Select

Choose the tray containing the paper you wish to copy onto: a paper tray, bypass tray or large capacity tray (LCT).

1 Select the paper tray, bypass tray or the LCT.

The indicator corresponding to the selected paper tray is highlighted. See “Copying from the Bypass Tray”.

[Image of Auto Paper Select interface]

[Image of Manual Paper Select interface]
Note

☐ If the orientation in which your original is placed (☑ or ☐) is different from that of the paper you are copying onto, this function rotates the original image by 90° to fit it on the copy paper.

☐ This function works when [Auto Paper Select] or [Auto Reduce / Enlarge] is selected. See “Auto Paper Select” and “Auto Reduce/Enlarge”.

☐ The default setting for Auto Tray Switching is [With Image Rotation]. You cannot use the Rotated Copy function if this setting is changed to [Without Image Rotation] or [Off]. See “Auto Tray Switching”, General Settings Guide.

☐ You cannot use the Rotated Copy function when enlarging onto A3, B4 JIS or 11” × 17”, 8 1/2” × 14” size paper. In this case, place your original in the ☐ orientation.

<table>
<thead>
<tr>
<th>Original size and orientation</th>
<th>Copy paper size and orientation</th>
</tr>
</thead>
<tbody>
<tr>
<td>You cannot rotate:</td>
<td></td>
</tr>
<tr>
<td>8 1/2” × 11”, or 5 1/2” × 8 1/2”</td>
<td>8 1/2” × 14”, or 11” × 17”</td>
</tr>
<tr>
<td>However, you can use:</td>
<td></td>
</tr>
<tr>
<td>8 1/2” × 11”, or 5 1/2” × 8 1/2”</td>
<td>8 1/2” × 14”, or 11” × 17”</td>
</tr>
</tbody>
</table>

☐ You cannot use the Rotated Copy function if Left 2, Top 2 is selected for stapling when using the 500-sheet finisher. See “Staple”.

☐ You cannot use the Rotated Copy function if 2 is selected for stapling when using the 1000-sheet finisher.

☐ You cannot use the Rotated Copy function if 2 or Center is selected for stapling when using the booklet finisher.
Preset Reduce/Enlarge

You can select a preset ratio for copying.

❖ Base Point

The base point of Reduce/Enlarge differs depending on how the original is scanned. When the original is placed on the exposure glass, the upper left corner will be the base point. When it is placed in the ADF, the bottom left corner will be the base point.

1 Base point when placed on the exposure glass.
2 Base point when placed in the ADF.
Press [Reduce / Enlarge].

Select a ratio, and then press [OK].

Place your originals, and then press the [Start] key.

Note
- To select a preset ratio on the initial display in step 1, press the shortcut reduce/enlarge key and go to step 3.
- See “Shortcut R / E” and “R / E Ratio Priority”, General Settings Guide.

Create Margin function

Create Margin function reduces the image to 93% of its original size to place the reduced image at the center. By combining it with the Reduce/Enlarge function, you can further increase a margin.

Press [Create Margin] displayed on the initial display.

If you do not want to combine it with the Reduce/Enlarge function, place your originals, and then press the [Start] key.

Note
- See “Customize: Copier Function Key”, “Ratio for Create Margin”, General Settings Guide.
Zoom

You can change the reproduction ratio in increments of 1%.

To select the ratio with [−] and [+]:

Select a ratio using [−] or [+].

1. Press [Reduce / Enlarge].

2. Select a preset ratio which is close to the desired ratio.

3. Adjust the ratio with [−] or [+].

   To change the ratio in increments of 1%, press [−] or [+]. To change the ratio increments of 10%, press and hold down [−] or [+].

4. Press [OK].

5. Place the originals, and then press the [Start] key.

Note

☐ If you have incorrectly entered the ratio in step 3, readjust it with [−] or [+].
To enter the ratio with the number keys

Select a ratio using the number keys.

1. Press [Reduce / Enlarge].

2. Press [Number keys].

3. Enter the desired ratio with the number keys, and then press [\#] key.

5. Place your originals, and then press the [Start] key.

Auto Reduce/Enlarge

The machine can choose an appropriate reproduction ratio based on the paper and original sizes you select.

![Auto Reduce/Enlarge Image]

**Important**

- You cannot use the bypass tray with this function.
- When using Auto Reduce/Enlarge, see the following table for original sizes and orientations you can use:
Copier Functions

❖ Metric version

<table>
<thead>
<tr>
<th>Where original is placed</th>
<th>Original size and orientation</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

1. Press [Auto Reduce / Enlarge].

2. Select the paper type.

3. Place your originals, and then press the [Start] key.

❖ Reference

See p.12 “Non-compatible originals for the Auto Document Feeder”.
Size Magnification

This function calculates an enlargement or reduction ratio based on the lengths of the original and copy.

Measure and specify the lengths of the original and copy by comparing “A” with “a”.

1. Press [Reduce / Enlarge].

2. Press [Size Magnification].

3. Enter the length of the original with the number keys, and then press [#] key.
   You can enter sizes between 1 to 999 mm in 1 mm steps.

4. Enter the length of the copy with the number keys, and then press [#] key.

6. Place the originals, and then press the [Start] key.

Note
- To change the length after pressing [#] key in step 4, select [Original] or [Copy], and then enter the desired length.
Directional Magnification (%)

Specify the horizontal and vertical lengths of the original and copy image at different reproduction ratio. Copies can be reduced or enlarged at different reproduction ratios horizontally and vertically.

a: Horizontal ratio
b: Vertical ratio

To enter the ratio with the number keys

Select a ratio using the number keys.

1. Press [Reduce / Enlarge].
2. Press [Direct. Mag. %].
3. Press [Horizontal].
4. Enter the desired ratio with the number keys, and then press [ # ] key.
5. Press [Vertical].
6. Enter the desired ratio with the number keys, and then press [ # ] key.
8. Place the originals, and then press the [Start] key.
To specify a ratio with [−] and [+]  

Select a ratio using [−] or [+].

1. Press [Reduce / Enlarge].

2. Press [Direct. Mag. %].

3. Press [[+] [−] keys].

4. Press [Horizontal].

5. Adjust the ratio using [+] or [−].  
   Pressing [+] or [−] changes the ratio in increments of 1%. Pressing and holding down [+] or [−] changes it in increments of 10%.

6. Press [Vertical].

7. Adjust the ratio with [+] or [−].

9. Place your originals, and then press the [Start] key.

Note
   □ If you have incorrectly entered the ratio in steps 5 or 7, readjust it with [+] or [−].
Directional Size Magnification (mm)

Specify the horizontal and vertical lengths of the original and copy image. Copies can be reduced or enlarged at different reproduction ratios horizontally and vertically.

1. Horizontal original size: Amm
2. Vertical original size: Bmm
3. Horizontal copy size: amm
4. Vertical copy size: bmm

Measure and specify the lengths of the original and copy by comparing “A” with “a” and “B” with “b”.

1. Press [Reduce / Enlarge].

2. Press [Dir. Size Mag. mm].

3. Enter the horizontal size of the original with the number keys, and then press [ # ] key.
   You can enter sizes between 1 to 999 mm in 1 mm (0.1”) steps.

4. Enter the horizontal size of the copy with the number keys, and then press [ # ] key.

5. Enter the vertical size of the original with the number keys, and then press [ # ] key.
6 Enter the vertical size of the copy with the number keys, and then press [ ] key.
7 Press [OK] twice.
8 Place the originals, and then press the [Start] key.

Note
- To change a length in steps 3 to 4, press the key you wish to change and enter the new value.

Sort
The machine assembles copies as sets in sequential order.

Important
- To use the Rotate Sort function, two paper trays loaded with same size and type paper, but in different orientation (L), are required. See “Paper Type: Tray 1-4”, General Settings Guide.
- You cannot use the bypass tray with Rotate Sort.

❖ Sort
Copies are assembled as sets in sequential order.

❖ Rotate Sort
Every other copy set is rotated by 90 degrees (L) and delivered to the copy tray.
1. Press [Finishing].

2. Select [Sort] or [Rotate Sort], and then press [OK].

When a finisher is not installed:

When the 500-sheet finisher is installed:

When the 1000-sheet finisher is installed:

When the booklet finisher is installed:
Enter the number of copy sets using the number keys.

Place your originals.
When placing an original on the exposure glass, start with the first page to be copied. When placing an original in the ADF, set so the first page is on the top. When placing an original on the exposure glass or in the ADF using Batch mode, press the [ ] key after all the originals have been scanned.

Press the [ ] key.

Note
☐ To confirm the type of finishing, press the [Sample Copy] key in step 4.

Sample copy
Use this function to check the copy settings before making a long copy run.

Important
☐ This function can be used only when the Sort function is turned on.

Select Sort and any other necessary functions, and then place the originals.

Press the [Sample Copy] key.
One copy set is delivered as a sample.

If the sample is acceptable, press [Continue].
The number of copies made is the number specified, minus one for the proof copy.

Note
☐ If you press [Suspend] after checking the results, return to step 1 to adjust the copy settings as necessary. You can change the settings for Staple, Duplex (1 sided → 1 sided, 1 sided → 2 sided), Copy Orientation, Margin Adjust., and Cover/Slip Sheet. However, depending on the combination of functions, you may not be able to change some settings.
Changing the Number of Sets

You can change the number of copy sets during copying.

Important
☐ This function can only be used when the Sort function is turned on.

1 While “Copying...” is displayed, press the [Clear/Stop] key.

2 Press [Change Quantity].

3 Enter the number of copy sets with the number keys, and then press the [#] key.

4 Press [Continue].

Copying starts again.

Note
☐ The number of sets you can enter in step 3 differs depending on when the [Clear/Stop] key is pressed.
Stack

Copies can be assembled with each page placed.

If a finisher is installed, each time the copies of one page are delivered, the next copy is shifted when delivered so you can separate each job by page.

Important
- You cannot use the bypass tray with this function.

1. Press [Stack].

2. Enter the number of copies with the number keys.

3. Place your originals, and then press the [Start] key.

Note
- When placing an original on the exposure glass, start with the first page to be copied. When placing an original in the ADF, set so the last page is on the bottom.
Staple

Each copy set can be stapled together.

Important

☐ You cannot use the bypass tray with this function.

❖ Stapling position and original setting

Place all the originals in the ADF in the orientation in which they can be read normally. When placing the original on the exposure glass, keep the same orientation, but set the original facing downwards. When there is copy paper that is identical in size and orientation to your original, the staple positions are as follows:

❖ 500-sheet finisher

<table>
<thead>
<tr>
<th>Original location</th>
<th>Stapling position</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exposure glass</td>
<td></td>
</tr>
<tr>
<td>Top Short Lett</td>

500-sheet finisher

1000-sheet finisher

Booklet finisher

When you select a stapling position, Sort mode is automatically selected.

3 Enter the number of copy sets using the number keys.

4 Place your originals, and then press the [Start] key.

Note

☐ When placing an original on the exposure glass, start with the first page to be copied. When placing an original in the ADF, set so that the last page is on the bottom.

☐ When placing an original on the exposure glass or in the ADF using Batch mode, press the [#] key after all the originals have been scanned.

☐ See “Select Stapling Position”, General Settings Guide.
Copying

Punch

You can make punch holes in copies.

❖ 2 holes

❖ 3 holes

❖ 4 holes

Important

❑ You cannot use the bypass tray with this function.
❖ **Punch hole positions**

The relationship between the orientation in which you place the original and the punch hole positions is as follows:

<table>
<thead>
<tr>
<th>Original location</th>
<th>Punch hole position</th>
</tr>
</thead>
<tbody>
<tr>
<td>Exposur glass</td>
<td>ADF</td>
</tr>
<tr>
<td>2 hole left</td>
<td></td>
</tr>
<tr>
<td>2 hole top</td>
<td></td>
</tr>
<tr>
<td>3 hole left</td>
<td></td>
</tr>
<tr>
<td>3 hole top</td>
<td></td>
</tr>
<tr>
<td>4 hole left</td>
<td></td>
</tr>
<tr>
<td>4 hole top</td>
<td></td>
</tr>
</tbody>
</table>

This table shows the punch hole positions, not the orientation of delivery. 2 hole left \( \square \) and 2 hole top \( \square \) are not available for larger than A4 size paper.

1. **Press [Finishing].**
2. **Select one of the punch hole positions.**
3. **Place your originals, and then press the [Start] key.**
Duplex

There are two types of duplex.

❖ 1 Sided → 2 Sides
  Copies 2 one-sided pages on 1 two-sided page.

❖ 2 Sided → 2 Sided
  Copies 1 two-sided page on 1 two-sided page.
Original orientation and completed copies

The resulting copy image will differ according to the orientation in which you place your originals (vertical or horizontal). The table shows the orientation of images on the front and back of copies, not the orientation of delivery.

<table>
<thead>
<tr>
<th>Original</th>
<th>How to place originals</th>
<th>Copy</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vertical</td>
<td>Standard</td>
<td>Top to Top</td>
</tr>
<tr>
<td>90° turn</td>

<td>Top to Bottom</td>
</tr>
<tr>
<td>Horizontal</td>
<td>Standard</td>
<td>Top to Top</td>
</tr>
<tr>
<td>90° turn</td>
<td></td>
<td>Top to Bottom</td>
</tr>
</tbody>
</table>

Press [Dup./Combine/Series].
2 Select [1 Sided → 2 Sided] or [2 Sided → 2 Sided].

3 Press [OK].

4 Place the originals, and then press the [Start] key.

Note
- You cannot use the bypass tray with this function.
- The maximum paper weight that can be used with duplex copying is 64–105 g/m² (17-28 lb.).
- When placing an original on the exposure glass, start with the first page to be copied. When placing an original in the ADF, set so that the last page is on the bottom.
- You can also select “1 Sided to 2 Sided” or “2 Sided to 2 Sided” directly by pressing the Copy Function Key in step 1. In that case, proceed to step 4.
- To change originals and copy orientation in step 2, press [Orientation].
- When placing an original on the exposure glass or in the ADF using Batch mode, press the [Enter] key after all the originals have been scanned.

Reference
See p.99 “Margin Adjustment”.
Originals and copy orientation

You can select the orientation.

- **Top to Top**

- **Top to Bottom**

Select orientation (original and copy), and then press [OK].

Note

The default setting is [Top to Top]. You can change the default orientation with Copier Features in User Tools. See “Copy Orientation in Duplex Mode”, “Original Orientation in Duplex Mode”, General Settings Guide.
One-Sided Combine

Combine several pages onto one side of a sheet.
There are six types of One-Sided Combine.

❖ **1 Sided 2 Pages → Combine 1 Side**
Copies 2 one-sided originals to one side of a sheet.

❖ **1 Sided 4 Pages → Combine 1 Side**
Copies 4 one-sided originals to one side of a sheet.

❖ **1 Sided 8 Pages → Combine 1 Side**
Copies 8 one-sided originals to one side of a sheet.

❖ **2 Sided 1 Page → Combine 1 Side**
Copies 1 two-sided original to one side of a sheet.

❖ **2 Sided 2 Page → Combine 1 Side**
Copies 2 two-sided originals to one side of a sheet.

❖ **2 Sided 4 Page → Combine 1 Side**
Copies 4 two-sided originals to one side of a sheet.

❖ **Orientation of the original and image position of combine**
Open to left (_Generic Symbol) originals

Open to top (_Generic Symbol) originals
Placing originals (originals placed in the ADF)
- Originals read from left to right

- Originals read from top to bottom

1. Press [Dup./Combine/Series].

2. Press [Combine].

4. Select the number of originals to combine.

5. Select the paper size.

6. Press [OK].

7. Place your originals, and then press the [Start] key.
**Note**

- You cannot use the bypass tray with this function.
- You can also select [1 sided → Comb 2 orig] or [1 sided → Comb 4 orig] directly by pressing the Copy Function Key in step 1. In that case, proceed to step 7.

**Reference**

See p.85 “Originals and copy orientation”.

---

**Two-Sided Combine**

Combines various pages of originals into one sheet with two sides. There are six types of Two-Sided Combine.

- **1 Sided 4 Pages → Combine 2 Side**
  
  Copies 4 one-sided originals to one sheet with two pages per side.

![Diagram of 1 Sided 4 Pages → Combine 2 Side](image)

- **1 Sided 8 Pages → Combine 2 Side**
  
  Copies 8 one-sided originals to one sheet with four pages per side.

![Diagram of 1 Sided 8 Pages → Combine 2 Side](image)

1. Front
2. Back
❖ **1 Sided 16 Pages → Combine 2 Side**
Copies 16 one-sided originals to one sheet with eight pages per side.

1. Front
2. Back

❖ **2 Sided 2 Pages → Combine 2 Side**
Copies 2 two-sided originals to one sheet with two pages per side.

❖ **2 Sided 4 Pages → Combine 2 Side**
Copies 4 two-sided originals to one sheet with four pages per side.

1. Front
2. Back
2 Sided 8 Pages → Combine 2 Side
Copies 8 two-sided originals to one sheet with eight pages per side.

1. Front
2. Back

1. Press [Dup./Combine/Series].

2. Press [Combine].

4. Select the number of originals to combine.

5. Press [OK].

6. Place your originals, and then press the [Start] key.
Note
- You cannot use the bypass tray with this function.

Reference
- See p.85 “Originals and copy orientation”.

Series Copies
Separately copies the front and back of a two-sided original or the two facing pages of a bound original onto two sheets.

Important
- You cannot use the Book → 1 Sided function from the ADF.
- See the following table for original and copy paper sizes when using a 100% ratio:

❖ Metric version

<table>
<thead>
<tr>
<th>Original</th>
<th>Paper for 1-sided copy</th>
</tr>
</thead>
<tbody>
<tr>
<td>A3</td>
<td></td>
</tr>
<tr>
<td>B4 JIS</td>
<td></td>
</tr>
<tr>
<td>A4</td>
<td></td>
</tr>
</tbody>
</table>

❖ Inch version

<table>
<thead>
<tr>
<th>Original</th>
<th>Paper for 1-sided copy</th>
</tr>
</thead>
<tbody>
<tr>
<td>11&quot; × 17&quot;</td>
<td></td>
</tr>
<tr>
<td>8 1/2 × 11&quot;</td>
<td></td>
</tr>
</tbody>
</table>

❖ Book → 1 Sided
You can make one-sided copies from two facing pages of a bound original (book).
2 Sided → 1 Sided
You can make one-sided copies from two-sided originals.

1 Press [Dup./Combine/Series].

2 Press [Series].

3 Select [2 Sided → 1 Sided] or [Book → 1 Sided], and then press [OK].
   If you selected [2 Sided → 1 Sided], you can change the orientation.

4 Place your original on the exposure glass, and then press the [Start] key.

Note
- Press the [#] key after all originals have been scanned.
**Booklet/Magazine**

Copies two or more originals in page order.
There are six types of Booklet/Magazine.

**Important**

- The following table shows the paper sizes of two-sided original and two-sided copy (when copying at a ratio of 100%):

  ❖ **Metric version**

<table>
<thead>
<tr>
<th>Original</th>
<th>Paper for 1-sided copy</th>
</tr>
</thead>
<tbody>
<tr>
<td>A3</td>
<td>A4 $\times$ 2 sheets</td>
</tr>
<tr>
<td>B4 JIS</td>
<td>B5 JIS $\times$ 2 sheets</td>
</tr>
<tr>
<td>A4</td>
<td>A5 $\times$ 2 sheets</td>
</tr>
</tbody>
</table>

  ❖ **Inch version**

<table>
<thead>
<tr>
<th>Original</th>
<th>Paper for 1-sided copy</th>
</tr>
</thead>
<tbody>
<tr>
<td>11&quot; × 17&quot;</td>
<td>8½&quot; × 11&quot; $\times$ 2 sheets</td>
</tr>
<tr>
<td>8½&quot; × 11&quot;</td>
<td>5½&quot; × 8½&quot; $\times$ 2 sheets</td>
</tr>
</tbody>
</table>

  ❖ **1 Sided → Booklet**

  Make copies in page order for a folded booklet as shown.
  - Open to left
2 Sided → Booklet

Make two-sided originals to copies in page order for a folded booklet as shown.

- Open to left

- Open to right
❖ 1 Sided → Magazine
Copies two or more originals to make copies in page order when they are folded and stacked.

- Open to left

❖ 2 Sided → Magazine
Copies two or more originals of two-sided to make copies in page order when they are folded and stacked.

- Open to left
• Open to right

[Diagram of open book pages]

❖ Book → 2 Sided
Copies a two-page spread original onto one sheet with one page per side.

[Diagram of book spread to single page]

You cannot use the bypass tray with “Book → 2 Sided” or “Front&Back → 2 Sided”.

❖ Front & Back → 2 Sided
Copies each two-page spread original as it is onto both sides of a sheet.

[Diagram of front and back spread to two sides of a page]
❖ How to fold and unfold copies to make a booklet
As shown below, fold a copy along the centerline, and open.

1. Open to left
2. Open to right

❖ How to fold and unfold copies to make a magazine
As shown below, fold and stack copies to make a magazine, and open.
• Open to left
• Open to right

Select [Open to Left] or [Open to Right] with User Tools.
2 Press [Dup./Combine/Series].

3 Press [Book].

4 Select a book type separately for the original ([1 Sided] or [2 Sided]) and copy ([Booklet] or [Magazine]), or select a book type from [Book → 2 Sided] and [Front&Back → 2 Sided].

5 Select the paper.

6 Press [OK].

7 Place your originals, and then press the [Start] key.

Note
- You cannot use the bypass tray with this function.
- When placing an original on the exposure glass or in the ADF using Batch mode, press the [#] key after all the originals have been scanned.
- The machine sets the reproduction ratio automatically to meet the paper size.
Margin Adjustment

Copies originals leaving a binding margin.

1 Press [Edit / Color].

2 Press [Margin Adj.].

3 Set a binding margin for a front page. Press [←] and [→] when setting the left and right margins, and [↓] and [↑] when setting the top and bottom margins.

4 Set a binding margin for the back side pages. Press [←] and [→] when setting the left and right margins, and [↓] and [↑] when setting the top and bottom margins, and then press [OK].

Margin on the back side of the page is valid when [1 Sided → 2 Sided] or [Combine 2 Sides] is selected.

5 Place your originals, and then press the [Start] key.

Note

- If you make a mistake, press [←], [→], [↓], [↑], or press [Clear] to set a new value.
- If you do not need to specify the margins for the back side pages in step 3, press [OK] and proceed to step 5.
Erase

This function erases the center and/or all four sides of the original image.
This function has the following three types:

❖ Border
This mode erases the edge margin of the original image.

❖ Center
This mode erases the center margin of the original image.

❖ Center/Border
This mode erases both the center and edge margins of the original image.
**Note**

- The relationship between the original orientation and the erased part is as follows:

<table>
<thead>
<tr>
<th>Original</th>
<th>Original</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image" alt="Diagram" /></td>
<td><img src="image" alt="Diagram" /></td>
</tr>
</tbody>
</table>

1. Erased part
2. 2-99 mm (0.1”-3.9”)

- The erase width is set to 10 mm (0.4 inch) as a default. You can change this setting with User Tools. See “Erase Center Width”, “Erase Border Width”, General Settings Guide.

### Border Erase (same width)

This mode erases the edge margin of the original image.

1. Press [Edit / Color].

![Image](image)

2. Press [Erase].

3. Press [Erase Center / Border].

4. Press [Same Width].
5 Set an erase border width with [+] or [−].
Pressing [+] or [−] changes the width in increments of 1 mm (0.1 inch). Pressing and holding down the relevant key changes the width in increments of 10 mm (0.4 inch).

6 Press [OK] twice.

7 Place your originals, and then press the [Start] key.

Note
❑ To change the value entered in step 5, press [+] and [−] to set a new value.

Border Erase (different width)
This mode erases the edge margin of the original image.

1 Press [Edit / Color].

2 Press [Erase].

3 Press [Erase Center / Border].

4 Press [Different Width].
5 Press the key for the border you want to change and set an erase width with [↑] and [↓].

![Erase Border Setting Menu]

6 Press [OK] twice.

7 Place your originals, and then press the [Start] key.

**Center Erase**

This mode erases the center margin of the original image.

1 Press [Edit / Color].

2 Press [Erase].

3 Press [Erase Center / Border].

4 Press [Erase Center].

5 Set the erase center width with [↑] and [↓].

6 Press [OK] twice.

7 Place your originals, and then press the [Start] key.
Center/Border Erase (same width)

This mode erases both the center and edge margins of the original image.

1. Press [Edit / Color].

2. Press [Erase].

3. Press [Erase Center / Border].

4. Press [Erase Center / Border].

5. Press [Same Width].

6. Press [Center], and then set the erase center width with [+] and [-].

7. Press [Border], and then set the erase border width with [+] and [-].

9. Place your originals, and then press the [Start] key.
**Center/Border Erase (different width)**

This mode erases both the center and edge margins of the original image.

1. **Press [Edit / Color].**
2. **Press [Erase].**
3. **Press [Erase Center / Border].**
4. **Press [Erase Center / Border].**
5. **Press [Different Width].**
6. **Press the key for the order you want to change and set an erase width with [+] and [−].**
7. **Press [OK] twice.**
8. **Place your originals, and then press the [Start] key.**
Background Numbering

Use this function to have numbers printed on the background of copies. If this function is used in conjunction with Sort, same numbers are printed on a department basis, helping you to keep track of confidential documents.

Important
- You cannot use the bypass tray with this function.

1. Press [Edit / Color].

2. Press [Stamp].

3. Press [Background Numbering].

4. Enter the number to start counting from with the number keys, and then press [ # ] key.

6. Place your originals, and then press the [Start] key.

Note
- To change the value entered in step 4, press the [Clear] or [Clear/Stop] key to set a new value.
- When the Full Color Copy is selected, the full Color counter will advance to “1”.
- The default Color is black.
Preset Stamp

Messages are stamped on copied.

**Important**
- You cannot use the bypass tray with this function.
- Only one message can be stamped at a time.

- The following eight messages are available for stamping: “COPY”, “URGENT”, “PRIORITY”, “For Your Info.”, “PRELIMINARY”, “For Internal Use Only”, “CONFIDENTIAL”, “DRAFT”

**Stamp position and original orientation**

The stamp positions differ according to the orientation in which you place your originals.
1 Press [Edit / Color].

2 Press [Stamp].

3 Press [Preset Stamp].

4 Select the desired message.
   You can change the Stamp Color, position, size, and density of the stamp.

5 Press [All Pages] or [1st Page Only] to select the print page.

6 After you specify all desired settings, press [OK].

7 Press [OK] twice.

8 Place your originals, and then press the [Start] key.

Note

❑ When the Full Color Copy is selected, the full Color counter will advance to “1”.

❑ The default user stamp Color is red.

Changing the stamp Color

Changes the stamp Color.

1. Press [Stamp Color].
2. Select the stamp Color, and then press [OK].

Changing the stamp position, size and density

Changes the stamp position, size and density.

1. Press [Change].
2. Select the position for print, size, and density, and then press [OK].

User Stamp

Copies a scanned image as a stamp. Letters or images you use frequently can be registered.

Important

- You have to register a user stamp before using this function.
- You cannot use the bypass tray with this function.
- Only one message can be stamped each time.
Stamp position and original orientation
The user stamp positions differ according to the orientation in which you place your originals.

1. Press [Edit / Color].

2. Press [Stamp].

3. Press [User Stamp].

4. Select the stamp you require.
   You can change the stamp Color and position.
5 Press [All Pages] or [1st Page Only] to select the print page.

6 After making all settings, press [OK].

7 Press [OK].

8 Place your originals, and then press the [Start] key.

Note
- When the Full Color Copy is selected, the full Color counter will advance to “1”.
- The default user stamp Color is red.

Changing the user stamp Color

Changes the stamp Color.

1 Press [Stamp Color].

2 Select the stamp Color, and then press [OK].

Changing the user stamp position

Changes the stamp position.

1 Press [Change] under < Stamp Position >.

2 Select the desired position, and then press [OK].
To program the user stamp

This function scans an image that is used as a user stamp.
The range of stamp images for readability is 10–297 mm (0.4”-11.7”) high and
10–432 mm (0.4”-17.0”) wide. However, if the value exceeds the maximum value
of the area (5,000 mm², 7.75 inch²), it is corrected within the range of the area au-
tomatically.

1. Make sure that the machine is in copier mode.

4. Press [Stamp].
5. Press [User Stamp].
6. Press [Program / Delete Stamp].
7. Press [Program], and then press the stamp number you want to program.
8. Enter the user stamp name (up to ten characters) with the letter keys, and
then press [OK].
9. Enter the horizontal size of the stamp with the number keys, and then press
[ ] key.
10. Press [Vertical], and then enter the vertical size of the stamp with the number
keys, and then press [ ] key.
Place the original for user stamp on the exposure glass, and then press [Start Scanning].
The original will be scanned, and the stamp will be registered.

Press [Exit].

Press [Exit].
The display returns to the Printer Configuration menu screen.

Press [Exit].
Exits settings and gets ready to copy.

Note
- Stamp numbers with ☑ already have settings in them.
- If the stamp number is already being used, the machine will ask you if you want to overwrite it. Press [Yes] or [No].
- Originals cannot be scanned from the ADF when programming the user stamp.

To delete the user stamp

Deletes an image registered as a user stamp.
You cannot restore a deleted stamp.

1. Make sure that the machine is in Copy mode.
**Date Stamp**

Use this function to print dates on your copies.

You can select from the following styles:
- MM/DD/YYYY
- MM.DD.YYYY
- DD/MM/YYYY
- DD.MM.YYYY
- YYYY.MM.DD
v Stamp position and original orientation
The date stamp positions differ according to the orientation in which you place your originals.

Important
You cannot use the bypass tray with this function.

1 Press [Edit / Color].

2 Press [Stamp].

3 Press [Date Stamp].

4 Select the stamp format.
   You can change the Stamp Color, style and position of the date to be stamped.
5 Press [All Pages] or [1st Page Only] to select the print page.

6 After all settings are complete, press [OK].

7 Press [OK].

8 Place your originals, and then press the [Start] key.

Note

- You can change the Stamp Color, format and position of the date to be stamped.
- The default Color is Black.
- See “Date Stamp”, General Settings Guide.

To change the date stamp Color

Changes the stamp Color.

1 Press [Stamp Color].

2 Select the stamp Color, and then press [OK].

To change the format of date

Changes the style of date to be stamped.

1 Press [Change Format] under <Current Date>.

2 Select the date format, and then press [OK].
To change the date stamp position

Changes the stamp position.

1 Press [Change] under < Stamp Position >.

2 Select the desired date stamp position, and then press [OK].
Page Numbering

Use this function to print page numbers on your copies.

There are six types of page numbering.
- P1,P2,…
- 1/5,2/5,…
- -1,-2,-,…
- P.1,P.2,…
- 1, 2, …
- 1-1,1-2,…

❖ Stamp position and original orientation
The page stamp positions differ according to the orientation in which you place your originals.

Important
❑ You cannot use the bypass tray with this function.
1 Press [Edit / Color].

2 Press [Stamp].

3 Press [Page Numbering].

4 Select the format.

5 After you specify all desired settings, press [OK].

6 Press [OK].

7 Place the originals, and then press the [Start] key.

Note
- You can specify the stamp Color, position, pages to be stamped, and numbering.
- The default Color is black.
- See “Stamp”, General Settings Guide.

Changing the stamp Color

Changes the stamp Color.

1 Press [Stamp Color].

2 Select the stamp Color, and then press [OK].
Changing the stamp position

Changes the stamp position.

2. Select the desired position, and then press [OK].

Specifying the first printing page and start number (“P1,P2…”, “-1,-2-…”, “P.1,P.2…”, “1,2…”)

Below explains the example when “P1, P2 …” is selected. The steps are the same for other cases.

2. Press [First Printing Page], enter the original sheet number from which to start printing from, and then press the [#] key.
3 Press [First Printing Number], enter the number of page from which to start numbering from with the number keys, and then press the [#{key} key. The example below shows when the first printing page is “2” and the start number is “3”.

4 Press [Last Number], enter the number of the page at which to stop numbering with the number keys, and then press the [#{key} key.

If you want to number all pages to the end, press [to the End].

5 When page designation is complete, press [OK].

6 Press [OK] twice.

Specifying the first printing page and start number (“1/5,2/5…”)

1 Press [Change] under <Change Numbering>.

2 Press [First Printing Page]. Enter the original sheet number from which to start printing, and then press [#{key} key.

You can enter between 1 and 9999 for the original sheet number from which to start printing.
3 Press [First Printing Number], enter the number of page from which to start numbering from with the number keys, and then press the [ # ] key.

4 Press [Last Number], enter the number of page at which to stop numbering with the number keys, and then press the [ # ] key.

Proceed to step 3 when not changing.

If you want to number all pages to the end, press [to the End].

The last number is the last page number to print. For example, if Total Pages is ten, if you want to print up to seven pages and do not want to print from page 8 on, enter “7” for Last Number. Normally, you do not need to enter the number.

5 Press [Total Pages], enter the total number of original pages with the number keys, and then press the [ # ] key.

6 When page designation is complete, press [OK] twice.

7 Place the originals, and then press the [Start] key.

Note
- To change the number entered in step 3, press the [Clear] or [Clear/Stop] key, and then enter a new number.
- To change the settings (the first printing page, the number of page from which to start numbering, or total number of pages) after pressing [OK], press [Change] and then enter the numbers again.
- To change a page number, press [StartPage], and then enter the number with number keys.

Specifying the first printing page and start number (“1-1,1-2...”)

1 Press [Change] under <Change Numbering>.

2 Press [First Printing Page], enter the original sheet number from which to start printing, and then press the [ # ] key.
3 Press [First Chapter No.], enter the chapter number from which to start numbering with the number keys, and then press the [#] key.
You can enter between 1 and 9999 for the chapter number from which to start numbering.

4 Press [First Printing Number], enter the page number from which to start printing with the number keys, and then press the [#] key.

5 Press [OK].

6 When page designation is complete, press [OK] twice.

7 Place the originals, and then press the [Start] key.

Note
❑ To change the number entered in step 3, press the [Clear] or [Clear/Stop] key, and then enter a new number.
❑ If you selected “1/5,2/5...” and want to change the settings (the first printing page, the number of page from which to start numbering, or total number of pages) after pressing [OK] in step 4, press [Change] and then enter the numbers again.
❑ If you selected “1/5,2/5...” and want to change a page number after pressing [OK] in step 4, press [Change] and then enter the number again with the number keys.

Image Repeat
The original image is copied repeatedly.
There are two ways to specify an image to be repeated.

❖ Whole Area Repeat
Repeatedly copies the entire image.

❖ Specified Area Repeat
Repeatedly copies a specified portion of the image.

Note
### Whole Area Repeat

Repeatedly copies the entire image.

The number of repeated images depends on the original size, copy paper size, and reproduction ratio. For example, see the following table:

- **Original**: A5\(\text{K}\)/Copy paper: A4\(\text{K}\) or Original: A5\(\text{L}\)/Copy paper A4\(\text{L}\), Original: 5\(1/2\)" × 8\(1/2\)"\(\text{K}\)/Copy paper: 8\(1/2\)" × 11"\(\text{K}\) or Original: 5\(1/2\)" × 8\(1/2\)"\(\text{L}\)/Copy paper: 8\(1/2\)" × 11"\(\text{L}\)

<table>
<thead>
<tr>
<th>4 repeats (71%)</th>
<th>16 repeats (35%)</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="image1" alt="Repeat1" /></td>
<td><img src="image2" alt="Repeat2" /></td>
</tr>

1. Select the size of copy paper and the reproduction ratio.
2. Press [Edit / Color].
3. Press [Edit Image].
4. Press [Image Repeat].
5. Make sure that [Whole Area] is selected, and then press [OK].
6. Press [OK].
7 Place your original, and then press the [Start] key.

**Specified Area Repeat**

Repeatedly copies a specified portion of the image.
Determine the location of the area's base point and its length and width.

1. Set on the exposure glass

- **Important**
  - You cannot use this function from the ADF.

1. Measure the location of the base point (X1, Y1) and its length and width (X2, Y2) for the area of the image repeatedly copied.
   You can set any value in the range of X1: 0-412 mm (0”-16.2”), X2: 20-432 mm (0.8”-17.0”), Y1: 0-277 mm (0”-10.8”), and Y2: 20-297 mm (0.8”-11.6”).

2. Select the size of copy paper and the reproduction ratio.

3. Press [Edit / Color].

4. Press [Edit Image].

5. Press [Image Repeat].

6. Press [Specified Area].

7. Enter the length of [X1] with number keys, and then press [ # ] key.

8. Enter the length of [Y1] with the number keys, and then press [ # ] key.

9. Enter the length of [X2] with the number keys, and then press [ # ] key.

10. Enter the length of [Y2] with the number keys, and then press [ # ] key.
Press [OK] twice.

Place the original on the exposure glass, and then press the [Start] key.

Double Copies

One original image is copied twice on one copy as shown.

Important

- You cannot use the bypass tray with this function.
- See the following table for original and copy paper sizes when using a 100% ratio:

  ❖ Metric version

<table>
<thead>
<tr>

<td></td>
</tr>
</tbody>
</table>
1 Select the paper.

2 Press [Edit / Color].

3 Press [Edit Image].

4 Press [Centering].

5 Press [OK].

6 Place your originals, and then press the [Start] key.
**Positive/Negative**

Copies an image inverted. If your original is black and white, copy images are inverted. If your original is Color, the density, darkness and brightness of each Color will be reversed and inverted to complimentary Colors.

1. **Important**
   - If your original is black and white, copy images are inverted. If your original is Color, the density, darkness and brightness of each Color will be reversed and inverted to complimentary Colors.

![Image of positive/negative function]

1. **Press [Edit / Color].**
2. **Press [Edit Image].**
3. **Press [Positive / Negative].**
4. **Press [OK].**
5. **Select the paper.**
6. **Place your originals, and then press the [Start] key.**
Copying

Mirror

Copies by reversing the image from left to right, as reflected in a mirror.

1. Press [Edit / Color].

2. Press [Edit Image].

3. Press [Mirror Image].

4. Press [OK].

5. Place the originals, and then press the [Start] key.
Covers function includes Front Cover and Front/Back Covers.

❖ Front cover
The first page of your originals is copied on specific paper sheet for covers, or a cover sheet is inserted before the first copy.

- Copy

❖ Front/Back Covers
The first and last pages of your original are copied on specific paper for use as covers, or a cover sheet is inserted before the first copy and after the last copy.

- Copy

1 Set the tray for the front cover paper.
The cover sheet should be the same size and orientation as the copy paper. See “Cover Sheet Tray”, General Settings Guide.
Copy

2 Press [Cover/Slip Sheet].

3 Select [Copy] or [Blank] for the cover sheet, and then press [OK].

4 Select the paper tray that contains the sheet paper to copy the originals.

5 Place your originals in the ADF, and then press the [Start] key.

Note

□ You can set neither the copy paper for originals nor cover sheets in the bypass tray.

□ When selecting [Copy] in step 3, select whether the front and back covers are copied 1 Sided or 2 Sided.

Designate

Use this function to have certain pages of your original copied onto slip sheets or to insert a slip sheet for each page specified.

Important

□ Before using this function, set the special paper tray for slip sheets.

□ The slip sheets should be the same size and orientation as the copy paper.

□ You cannot place the copy paper in the bypass tray.
1 Press [Cover/Slip Sheet].

2 Press [Designate / Chapter].

3 Select [Designate: Copy] or [Designate: Blank].

4 Press the key to select the chapter number.
   To select pages 11 to 20 (chapter), press [11-20].

5 Enter the page location of the first page of the first chapter with the number keys, and then press the [\#] key.

6 To specify another page location, repeat steps 4 to 5.
   Up to 20 pages can be specified.

7 Select the paper tray that contains the sheet paper to copy the originals.

8 When you finish specifying pages, press [OK] twice.

9 Place your originals in the ADF, and then press the [Start] key.

   Reference
   See “Slip Sheet Tray”, General Settings Guide.
Chapters

The page locations you specify with this function will appear on the front of copy sheets.

Important

Before selecting this function, press [Dup./Combine/Series] and select “1 Sided → 2 Sided” or “Combine”.

This function can be used only when you use the Duplex (1 Sided→2 Sided) or Combine function.

1 Press [Cover/Slip Sheet].

2 Press [Designate / Chapter].

3 Press [Chapter].

4 Press the key to select the chapter number.
   To select chapters 11 to 20, press [11-20].

5 Enter the page location of the first page of the first chapter with the number keys, and then press the [#] key.
   You can specify the pages up to 20.

6 To specify another page location, repeat steps 4 to 5.

7 Select the paper.

8 When page designation is complete, [OK] twice.
Place the originals, and then press the [Start] key.

**Slip Sheets**

Every time an original page changes, a slip sheet is inserted. You can also print on the inserted slip sheet.

Since a slip sheet is inserted for every page, you can protect printed surfaces. This function is useful in copying OHP transparencies.

**Important**

- Before using this function, set the special paper tray for slip sheets.
- Load the slip sheets in the same size and orientation as the copy paper or the OHP transparency.

**When using OHP transparencies placed in the bypass tray**

- Copy

- Blank
1 Press [Cover/Slip Sheet].

2 Select [Copy] or [Blank], and then press [OK].

3 Select the paper tray containing the sheet paper to copy the originals.
   When using OHP transparencies, open the bypass tray.

4 Place the originals, and then press the [Start] key.

   **Note**
   - Press the [#] key and select [OHP (Transparency)] in Special paper.
   - When copying OHP transparencies set on the bypass tray, if Internal Tray 1 is not selected for the output paper tray, copies are delivered to it.
   - See “Slip Sheet Tray”, General Settings Guide.

   **Reference**
   See p.38 “When copying onto OHP Transparencies or Thin Paper”.

Storing Data in the Document Server

The Document Server enables you to store documents in the memory and print them as you want.

**Important**

Data stored in the machine might be lost if some kind of failure occurs. The manufacturer shall not be responsible for any damage that might result from the loss of data.

1. Press [Store File].

2. Enter a file name, user name, or password if necessary.

3. Press [OK].

4. Place the originals.

5. Make the scanning settings for the original.
6 Press the [Start] key.

Originals are scanned and stored in memory.

**Note**

- To stop scanning, press the [Clear/Stop] key. To resume a paused scanning job, press [Continue] in the confirmation display. To delete scanned images and cancel the job, press [Stop]. The originals placed in the ADF are delivered.

- When placing an original on the exposure glass, press the [ # ] key after all the originals have been scanned.

- Data stored in the Document Server is set to be deleted after three days by the factory default. You can specify the period after which the stored data is deleted automatically. For details about changing settings, see “Auto Delete File in Document Server”, General Settings Guide.

- To check if the document has been stored, press the [Document Server] key.

- If you want to store another document, do so after copying is complete.

- For details about the Document Server, see “Document Server”.

- For details about printing stored documents, see “Printing a Stored Document”.

- For details about setting user name, file name, and password, see “Storing Data”.

- Depending on the security setting, [Access Privileges] may appear instead of [User Name]. For details about specifying [Access Privileges], consult the administrator.

**Reference**

See p.147 “Using the Document Server”.

See p.156 “Printing a Stored Document”.

See p.147 “Storing Data”.

Reference
Programs

You can store the frequently used copy job settings in the machine memory and recall them for future use.

You can store up to 10 programs.

Note

- You can select the standard mode or program No. 10 as the mode to be set when modes are cleared or reset, or immediately after the operation switch is turned on. See “Programming Defaults in Initial Display”.
- Paper settings are stored based on paper size. So if you place more than one paper tray of the same size, the paper tray prioritized with User Tools (System Settings) will be selected first. See “Paper Tray Priority”, General Settings Guide.
- Programs are not deleted by turning the power off or by pressing the [Clear Modes] key.

Storing a Program

Stores a program.

1. Edit the copy settings so all functions you want to store in this program are selected.

2. Press the [Program] key.

3. Press [Program].
4 Press the program number you want to store.

5 Enter the program name with the letter keys on the display panel. You can enter up to 40 characters.

6 Press [OK]. The screen returns to the program screen, showing the program number followed by the program name. The screen returns to the initial copy display after a short time.

Note
- Program numbers with ◊ against them already have settings made for them.
- If you do not want to enter the program name in step 5, proceed to step 6.

Changing a Stored Program

Changes program settings.

1 Check the program settings.

2 Set the contents of a program.

3 Press the [Program] key.

4 Press [Program].

5 Press the program number you want to store.

6 Press [Yes].

7 Enter the program name. You can enter up to 40 characters.

8 Press [OK]. The screen returns to the program screen, showing the program number followed by the program name. The screen returns to the initial copy display after a short time.
Note

When you want to check the contents of a program, recall the program.
When it is overwritten, the previous program is deleted.

Deleting a Program

Erases the contents of program.

1. Press the [Program] key.
2. Press [Delete].

3. Press the program number you want to delete.
4. Press [Yes].
The program is deleted, and the display returns to the initial copy display.

Recalling a Program

Recalls a stored program and copies its contents.

1. Press the [Program] key.
2. Press [Recall].

3. Press the program number you want to recall.
The stored settings are displayed.
4 Place the originals, and then press the [Start] key.

Note
☒ Only programs with ☒ against them contain a program in step 3.

Programming Defaults in Initial Display

This section describes how to program defaults for the initial display when modes are cleared or reset, or immediately after the operation switch is turned. The default settings you can program are Color Mode, Paper Tray, Original Type, Density, Special Original, Original Orientation, Cover/Slip Sheet, Edit / Color, Dup./Combine/Series, Reduce / Enlarge, Finishing.

1 Specify scan settings and any other settings you require in the initial display.

2 Press the [Program] key.

3 Press [Program as Defaults].

4 Press [Program].

5 When a confirmation dialog appears, press [Yes].

The current settings are programmed as defaults. The screen returns to the initial display.

Note
☒ To restore the factory default settings on the initial display, press [Restore Factory Defaults].

☒ The default settings can be programmed separately for the normal screen and simplified screens.
Using the Document Server enables you to store documents being read with the copy feature on the hard disk of this machine. Thus you can print them later applying necessary conditions.

### Relationship between Document Server and Other Functions

State of the Document Server varies depending on the function used.

- **Copier Functions**
  - Storing method: Copy/Document Server
  - List display: Available
  - Printing: Available
  - Transmission: Unavailable

- **Printer Functions**
  - Storing method: Personal computer
  - List display: Available
  - Printing: Available
  - Transmission: Unavailable

- **Fax Functions**
  - Storing method: Fax
  - List display: Available
  - Printing: Available
  - Transmission: Available
  
  Transmission is done by use of the stored document transmission of the fax feature. See “Sending Stored Documents”, Facsimile Reference.

- **Scanner Functions**
  - Storing method: Scanner
  - List display: Unavailable
  
  When documents are stored with the scanner feature, you can confirm them from the scanner feature screen. See “Displaying the List of Stored Files”, Scanner Reference.
  - Printing: Unavailable
  - Transmission: Available
  
  Transmission is done by use of the stored document transmission of the scanner feature. See “Sending Stored Files”, Scanner Reference.
Document Server Display

Following explains the screens and icons displayed in the Document Server function.

❖ Document Server initial display

1. This screen displays the operational status and messages.
2. The number of the originals being read with the memory as well as the number of paper sets and copied are displayed.

3. Keys for the operation is displayed.

The list display of the Document Server shows the following icons depending on the storing function and the color mode selected:

<table>
<thead>
<tr>
<th>Function</th>
<th>Copying</th>
<th>Facsimile</th>
<th>Printer</th>
</tr>
</thead>
<tbody>
<tr>
<td>Icons</td>
<td>![Icon]</td>
<td>![Icon]</td>
<td>![Icon]</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Color icons</th>
<th>Full color</th>
<th>Black and white</th>
<th>Monochrome</th>
</tr>
</thead>
<tbody>
<tr>
<td>![Icon]</td>
<td>![Icon]</td>
<td>![Icon]</td>
<td>![Icon]</td>
</tr>
</tbody>
</table>
**Note**

☒ All the stored documents may not be displayed depending on the security function specified.

---

**Simplified Display**

This section explains how to use the “Simplified Display” and introduces its keys.

You can view the simplified display from the Document Server's initial screen by pressing the **Simplified Display** key.

The simplified display contains main functions only. Characters and keys are enlarged on this screen, making for easier operation.

![Simplified Document Server Screen](image)

**1. [Key Color]**

Use this to intensify the screen contrast by changing the color of the keys. Not available on the Document Server default display.

**Note**

☒ Press the **Simplified Display** key again to return to the Document Server default screen.

☒ The simplified display screen does not contain every available key.
Preview Display

Following explains the preview display displaying procedure and the items displayed on this screen.

The Preview Display appears after scanning completes. You can also display stored documents on the preview display. For details, see “Displaying the List of Stored Files”, Scanner Reference.

The preview display denotes the screen that allows confirming contents of the scanned documents.

❖ Preview Display

1. [←][→][↑][↓]
   They are used to move the portion to be displayed.

2. [Zoom Out], [Zoom In]
   Used to scale up or down the document to be displayed.

3. [Exit]
   The login screen will appear.

4. Display File
   Used to display the document name.
   [Switch] is displayed on the preview screen for the stored documents. Above key is used to switch the document to be displayed in the preview.

5. Display Page
   Used to display the currently opened page number, total number of pages, page size and the color mode selected.

6. [Switch]
   Used to turn the page of the selected document.

7. Display Position
   When the image is enlarged, the position on the document indicated by this key is displayed.

확

❑ When the preview is already selected from another function, the preview screen function may become unusable.

❑ The preview display is also not available when the paper size is larger than A3.
Using the Document Server

Following describes how to use the Document Server.

Storing Data

Following describes the procedure for storing documents on the Document Server.

Important

❑ Data stored in the machine might be lost if some kind of failure occurs. The manufacturer shall not be responsible for any damage resulting from loss of data.

❑ When entering your password or recording it to your notebook or like, be sure to protect it from being seen by others. Care must also be exercised for safe keeping of its recording paper.

❑ Enter the password in the range of four and eight digits.

❑ It is advisable not to use the same number such as “0000” or continuous numbers such as “1234” for your password. These numbers are imagine fully and they do not provide sufficient security.

❑ When you have selected a document using a correct password, it remains being selected after the operation is finished. As is, therefore, the document is left operable to those who don’t the password. After the operation, be sure to press the [Clear Modes] key to cancel the selected state of the document.

❑ User names registered to the stored documents of the Document Server are used for identifying the documents’ authors and the nature of the documents. They don’t function as a protective means of confidential documents.

❑ When turning on the fax transmission or scanning by the scanner, make sure that all other operations are ended.

❖ File Name

A document name such as “COPY0001” and “COPY0002” is automatically attached to the scanned document. You can change the document name.

❖ User Name

You can specify the user name so that the person or department that has stored the document can be identified. Two approaches are available in specifying the user name. One is specifying the name being registered from the Address Book Management and the other is entering another name.

❖ Password

You can specify a password for a document to be stored. When a password is set for a document, you are to enter that password for printing the document. Above arrangement prevents unauthorized printing of the document. Lock icon will be attached to the document for which a password has been set.

2 Press [Scan Original].

3 Above operation sets up the user name, document name and password. When not changing a document name, the name will be automatically set.

4 Set the original.

5 Specify the original scanning conditions.

6 Press [Start] key. The original is canned. The document is saved in the Document Server.
Note

☐ When interrupting the scan, press [Clear/Stop] key. Pressing [Continue] from the confirmation screen resumes the scan. Pressing [Stop] deletes the scanned images and the original on the automatic document feeder (ADF) will be ejected.

☐ As a password is set, the lock mark will be displayed on the left side of the document.

☐ As scan of the document is completed, a list will be displayed. If the list did not appear, press [Scanning Complete].

☐ According to the factory default, the documents stored on the Document Server are deleted three days (72 hours) after the storing date. You can cancel the automatic document deletion or select other period than three days for the automatic deletion. See “Auto Delete File in Document Server”, General Settings Guide.

☐ When storing a document in the Document Server after storing it from the copy feature, be sure that its copy is completed.

To register or change a user name (When using a user name registered to the Address Book)

Following describes the procedure for registering or changing a user name to be attached to a stored document.

1 Display the original scan screen.

2 Press [User Name].

Screen for user name change will appear

3 Select the user name and then press [OK].
To register or change a user name (When using a user name not registered to the Address Book)

Following describes the procedure for registering or changing a user name to be attached to a stored document.

1 Display the original scan screen.

2 Select the user name and then press [OK].

   A Display the original scan screen.
   B Select the user name and then press [OK].
   C Press [Manual Entry].
   D Enter the user name and then press [OK].

The user name change screen will appear.

3 Press [Manual Entry].

4 Enter the user name and then press [OK].

To register or change a user name (When no name is registered to the Address Book)

Following describes the procedure for registering or changing a user name to be attached to a stored document.

1 Display the original scan screen.

2 Press [User Name].

   A Display the original scan screen.
   B Press [User Name].
   C Enter the user name and then press [OK].
   D Enter the user name and then press [OK].

The user name input screen will appear.

3 Enter the user name and then press [OK].
To change a file name

Following describes the procedure for changing a name to be attached to a stored document.

1. Display the original scan screen.
2. Press [File Name].
3. Press [Clear] to delete the document name to be automatically set.
4. Enter document name and then press [OK].

Note
- In Step 3, pressing [Backspace] allows you to delete up to any desired location.
- You can enter up to 10 full size or 20 half-size characters for a document name. In the list, however, up to 8 full size or 16 half-size characters are displayed as the document name. If above limits are exceeded, the list will display up to 7 full size or 15 half-size characters for the document name.
To set or change a Password

Following describes the procedure for setting or changing a password to be attached to a stored document.

1 Display the original scan screen.

2 Press [Password].

3 Enter the password from the numerical keypad and then press [OK]. You can use four to eight digits for specifying the password.

4 Four double-check, enter the password again and then press [OK].

Changing User Name, File Name or Password of a Stored Document

Following describes the procedure for changing a user name, document name or password.

2 Select the document whose user name, document name or password is to be changed.

When a password is set, enter it and then press [OK].

3 Press [File Management].
4 Press [Change User Name], [Change File Name] or [Change Password].

5 From the respective change screens, enter the new user name, document name or password and then press [OK].

6 Press [OK].

 água Note
 Depending on the security setting, [Access Privileges] may appear instead of [User Name]. For details about specifying [Access Privileges], consult the administrator.

Checking the Details of a Stored Document

Following describes the procedure for displaying details of a stored document.

1 Select the document whose details are to be displayed.

When a password is set, enter it and then press [OK].
Press [Details].
Details of the document will be displayed.

Note
- When you have selected two or more documents, you can view the information of the documents in the order of [▲][▼].
- Pressing [Exit] restores the document selection screen.

Searching for a Stored Document

Following describes the procedure for searching a stored document from user name or document name.

You can rearrange the currently chronologically ordered documents in any desired order.

❖ To search by file name
Following describes the procedure for searching a stored document from the document name.

❖ To search by user name
Following describes the procedure for searching a stored document from the user name.

Note
- Installing DeskTopBinder Lite enables search and reordering of stored documents from PC.
- For details about DeskTopBinder Lite, see Instruction Manual and Help of DeskTopBinder Lite.
To search by file name

Following describes the procedure for searching a stored document from the document name.

2. Press [File Name].

3. Enter the document name to be searched and then press [OK].
   A document name that matches completely from the starting character will be searched and displayed on the document selection screen.

   Note
   - Pressing [Display All] displays ever stored document.

To search by user name

Following describes the procedure for searching a stored document from the user name.

2. Press [User Name].

3. When specifying a registered user name, select the user name and then press [OK].
   When using a not-registered user name, proceed to the next step.
4 When the user name is not registered, press [Manual Entry] and then enter the user name from the input screen to be displayed. Then press [OK].

5 Press [OK].

A document name that matches completely from the starting character will be searched and displayed on the document selection screen.

Note
- Pressing [Display All] displays ever stored document.

### Printing a Stored Document

Following describes the procedure for printing a stored. Using Web Image Monitor allows you to print a document stored in the Document Server from your PC.

1. **Select the document to be printed.**
   - When a password is set, enter it and then press [OK].

2. **When printing two or more documents at a time, repeat the operation in step 1.**
   - Up to 30 documents can be printed.

3. **When specifying printing conditions, press [To Printing Screen].**
   - The printing condition screen will appear. User name of the document, document name and the order of printing of this document will be displayed.
4 Enter the number of print copies from the numerical keypad.

Up to 999 copies are specifiable.

5 Press [Start] key.

Printing will be started.

Note

- You can search the target document using, in step 1, [User Name] or [File Name] situated in the upper left side of the screen.
- Some of the selected document may not be printed due to the difference in the size or resolution.
- When changing the printing order, cancel the highlight and then specify the order correctly.
- Pressing [Clear Modes] key cancels every selection.
- Pressing [Order] displays the selected documents in the printing order.
- The copy and printer features holds the specified printing conditions after the operation is over and applies them at the next printing. The fax feature does not have the function of storing the printing conditions.
- When two or more documents are specified, the printing conditions are stored on the first document but not on the succeeding documents.
- Following settings are available for the printing conditions. For respective printing results, see “Copier Functions”.
  - Book binding style (2 Sided Top to Top, 2 Sided Top to Bottom, Magazine, Booklet)
  - Treatment of front cover (Cover/Slip Sheet, Edit / Stamp)
  - Finish (Sort, Rotate Sort, Stack, Staple, Punch)
- When printing two or more copies while selecting the sort function, you can confirm the finish by printing only one copy.
- When printing two or more documents at a time, you can print them as a single continuous document by specifying the order of their printing.
- When printing two or more documents at a time, the printing conditions set for the first document are applied to all the remaining documents.
When two or more documents are selected, pressing [▲][▼] allows you to confirm the user name, document name and printing order being designated for deletion in step 1.

Pressing [Select File] restores the document selection screen.

Stamp function is not specifiable to the documents being stored from the fax feature.

Reference
See p.57 “Copier Functions”

When Interrupting Printing
Following describes the procedure for interrupting printing work.

1. Press [Clear/Stop] key
2. Press [Suspend].

Changing Number of Print Copies while Printing is in Progress
Following describes the procedure for changing the number of print copies after printing is started.

Important
This feature is enabled when the sort function is selected in the printing conditions.

2. Press [Change Quantity].
3. Enter the number of print copies anew from the numerical keypad.
4. Press the [#] key.
5. Press [Continue].

Printing will be resumed.

Note
The range of print copies enterable in step 8 depends on the timing of your pressing [Clear/Stop] key.
Sample Print

When print copies are massive, you can print a single copy in advance to check appropriateness of the printing order of the selected documents and the printing conditions.

**Important**
- This feature is enabled when the sort function is selected in the printing conditions.

1. **Select the document to be printed.**

   ![Sample Print Table]

   When a password is set, enter it and then press [OK].

2. **Press [Sample Copy] key.**

   Only one copy will be printed.

3. **Press [Continue].**

   Printing will be resumed.

**Note**
- You can search the target document using, in step 1, [User Name] or [File Name] situated in the upper left side of the screen.
- In the display order field of step 1, you can sort the documents by [User Name], [File Name], [Date]. Press the item to be used for the sorting.
- When canceling the selection in step 1, press the highlighted document again.
- When canceling the printing, press [Suspend]. The print screen will appear, enabling to set another item.
Printing the First Page

In order to confirm the print results, you can print the first page alone of the document selected from the document selection screen.

When two or more documents are selected, the first page of the respective documents is printed.

1. **Select the document to be printed (confirmed).**
   - When a password is set, enter it and then press [OK].

2. **Press [Print Specified Page].**

3. **Press [1st Page].**

4. **Press [Start] key.**

   **Note**
   - You can search the target document using, in step 1, [User Name] or [File Name] situated in the upper left side of the screen.
   - In the display order field of step 1, you can sort the documents by [User Name], [File Name], [Date]. Press the item to be used for the sorting.
   - When canceling the selection in step 1, press the highlighted document again.

Printing a Specified Page

You can print the specified page alone of the document selected from the document selection screen.

When two or more documents are selected, the specified page of the respective documents is printed.

1. **Select the document to be printed.**
   - When a password is set, enter it and then press [OK].

2. **Press [Print Specified Page].**
3 Press [Specified Page].

4 Specify the page to be printed from the numerical keypad and then press [\#] key.

5 Press [Start] key.

Note
☐ You can search the target document using, in step 1, [User Name] or [File Name] situated in the upper left side of the screen.
☐ In the display order field of step 1, you can sort the documents by [User Name], [File Name], [Date]. Press the item to be used for the sorting.
☐ When canceling the selection in step 1, press the highlighted document again.

Printing a Specified Range

You can print the pages in the specified range alone of the document selected from the document selection screen.

When two or more documents are selected, pages in the specified range of the respective documents is printed.

1 Select the document to be printed.
   When a password is set, enter it and then press [OK].

2 Press [Print Specified Page].

3 Press [Specify Range].
4 Specify the printing start page from the numerical keypad and then press [ # ] key.

5 Specify the printing end page from the numerical keypad and then press [ # ] key.

6 Press [ Start ] key.

Note
- You can search the target document using, in step 1, [ User Name ] or [ File Name ] situated in the upper left side of the screen.
- In the display order field of step 1, you can sort the documents by [ User Name ], [ File Name ], [ Date ]. Press the item to be used for the sorting.
- When canceling the selection in step 1, press the highlighted document again.

Deleting a Document

Following describes the procedure for deleting a stored document.

Important
- The Document Server can store up to 1000 documents. As the number of stored documents reaches 1000, storing of a new document becomes unavailable. Thus, you should delete unnecessary documents as much as practicable.

2 Select the document to be deleted.
   When a password is set, enter it and then press [ OK ].

3 Press [ Delete File ].

4 Press [ Yes ].
Using the Document Server

Note

❑ It deletes the stored documents at a time. See “Delete All Files in Document Server”, General Settings Guide.

❑ Using Web Image Monitor allows you to print a document stored in the Document Server from your PC.

❑ It is also possible to select two or more documents and delete them.

❑ You can search the target document using, [File Name] or [User Name] situated in the upper left side of the screen.

❑ In the display order field, you can sort the documents by [User Name], [File Name], [Date]. Press the item to be used for the sorting.

❑ When you could not identify the target document from the document name, print the first page alone of the document in order to confirm the print results.

❑ When canceling your selection, press the highlighted document again.

❑ For the Web Image Monitor starting procedure, see “Displaying a Document in Document Server with Web Image Monitor”.

Displaying a Document in Document Server with Web Image Monitor

Following describes the procedure for confirming contents of a stored document on the PC screen by use of Web Image Monitor.

1 Start Web browser.

2 Enter “http:// (IP address of this machine) /” to the address.

   Top page of Web Image Monitor will be displayed.

3 Click [Document Server].

   The list of documents in the Document Server will be displayed

4 Click of the document you want to confirm.

   Information of the document will be displayed.

5 Confirm contents of the document.

Note

❑ You can change the document list display format from step 3. Click the (Thumbnails), (Icons), or (Details).

❑ When you want to enlarge the preview display in step 4, click [Enlarge Image].
**Downloading Stored Documents**

Following describes the procedure for downloading a stored document to the PC by use of Web Image Monitor.

**Important**
- When downloading a document stored with the copy feature, you must prepare the extended data conversion board.

1. Start Web browser.
2. Enter “http://(IP address of this machine)/” to the address.
   Top page of Web Image Monitor will be displayed.
3. Click [Document Server].
   List of the documents will be displayed.
4. Click of the document you want to download.
5. Select File format [PDF][Multi-page TIFF] and then click [Download].
   The data will be downloaded.
6. Click [OK].

**Note**
- You can change the document list display format from step 4. Click the (Thumbnails), (Icons), or (Details).
- In step 5, you cannot select [Multi-page TIFF] for a document being stored with the copy or printer.
Following describes the copy machine’s specifications and the function compatibility.

### Function Compatibility

The combination chart given below shows which modes can be used together.

- **Blank space**: These modes can be used together.
- **×**: These modes cannot be used together. The first mode selected will be the mode you are working in.
- **•**: These modes cannot be used together. The second mode selected will be the mode you are working in.

The following shows the combinations of functions:
"1 When “2 Sided → 1Sided” is specified, the combination with the front cover or slip sheet (Designate) is ×.

"2 Combination of “Staple: Top” and “Punch: Left” is ×.
Combination of “Staple: Left” and “Punch: Top” is ×.
Combination of “Staple: Center” and “Punch: Left”/“Punch:Top” is ×.
Supplementary Informations

Following describes the detailed specifications of the respective functions.

❖ **Mixed Size mode**
- Since small originals may not be correctly aligned with the original guide, the copy image may be slanted.
- You can place originals of two different sizes at a time.
- Copying speed and scanning speed will be reduced.

❖ **Bypass Tray Copy**
- The following paper sizes can be selected as the standard sizes:
  - A3, B4 JIS, A4, B5 JIS, A5, B6 JIS, A6, 12 × 18, 11 × 17, 8 1/2 × 14, 8 1/2 × 11, 5 1/2 × 8 1/2, Postcard, 148 × 200 mm
- When the beeper is turned off, it will not sound if you insert paper into the bypass tray. See “Panel Tone”, General Settings Guide.

❖ **Preset Enlarge/Reduce**
- You can select one of 12 preset ratios (5 enlargement ratios, 7 reduction ratios).
- Following shows the relation between the original's size and copied-to paper size at respective scaling factors.
  - Metric version
    - 400% (Area ratio 16 times):
      - 200% (Area ratio 4 times): A5 → A3, B6 JIS → B4 JIS
      - 141% (Area ratio 2 times): A4 → A3, A5 → A4, B5 JIS → B4 JIS, B6 JIS → B5 JIS
      - 122%: A4 → B4 JIS, A5 → B5 JIS
      - 115%: B4 JIS → A3, B5 JIS → A4, B6 JIS → A5
      - 93%:
      - 82%: B4 JIS → A4, B5 JIS → A5
      - 75%: B4 JIS → F, B4 JIS → F
      - 71% (Area ratio 1/2 times): A3 → A4, A4 → A5, B4 JIS → B5 JIS, B5 JIS → B6 JIS
      - 65%: A3 → F
      - 50% (Area ratio 1/4 times): A3 → A5, B4 JIS → B6 JIS
      - 25%:
Appendix

- Inch version
  
  400% (Area ratio 16 times): -
  200% (Area ratio 4 times): $5\frac{1}{2}'' \times 8\frac{1}{2}'' \rightarrow 11'' \times 17''$
  155% (Area ratio 2 times): $5\frac{1}{2}'' \times 8\frac{1}{2}'' \rightarrow 8\frac{1}{2}'' \times 14''$
  129%: $8\frac{1}{2}'' \times 11'' \rightarrow 11'' \times 17''$
  121%: $8\frac{1}{2}'' \times 14'' \rightarrow 11'' \times 17''$
  93%: -
  85%: F $\rightarrow 8\frac{1}{2}'' \times 11''$
  78%: $8\frac{1}{2}'' \times 14'' \rightarrow 8\frac{1}{2}'' \times 11''$
  73%: $11'' \times 15'' \rightarrow 8\frac{1}{2}'' \times 11''$
  65%: $11'' \times 17'' \rightarrow 8\frac{1}{2}'' \times 11''$
  50% (Area ratio 1/4 times): $11'' \times 17'' \rightarrow 5\frac{1}{2}'' \times 8\frac{1}{2}''$
  25%: -

- You can select a ratio regardless of the size of an original or copy paper. With some ratios, parts of the image might not be copied or margins will appear on copies.

- If a Copy Data Security Unit is installed, you can select the factor from 50 to 400%.

❖ Zoom

- The reproduction ratios you can specify are 25-400%. The factor can be from 50 to 400%, when the machine is equipped with a Copy Data Security Unit.

- You can select a ratio regardless of the size of an original or copy paper. With some ratios, parts of the image might not be copied or margins will appear on copies.

❖ Size Magnification

- If the calculated ratio is over the maximum or under the minimum ratio, it is automatically adjusted to within available range. However, with some ratios, parts of the image might not be copied or margins will appear on copies.

- The reproduction ratios you can specify are 25-400%. If the machine is equipped with a Copy Data Security Unit, the range is from 50 to 400%.

❖ Directional Size Magnification

- The reproduction ratio you can specify are 25-400%. If the machine is equipped with a Copy Data Security Unit, the range is from 50 to 400%.

- When entering a percentage ratio, you can specify any value in the permitted range, regardless of original or copy paper size. However, depending on settings and other conditions, part of the image may not be copied, or margins will appear on copies.

- When entering a size in mm, if the calculated ratio is over the maximum or under the minimum ratio, it is automatically adjusted to within available range. However, with some ratios, parts of the image might not be copied or margins will appear on copies.
Sort, Rotate Sort, Stack

- Following shows the stackable paper sizes and the orientation.

  - Internal shift sort tray
    12” × 18” A4, B4, A4, A4, B5, A5, B6, A6, 11” × 17”
    8½” × 14” , 8½” × 11” , 5½” × 8½” , 7½” × 10½”
    8½” × 13” , 8½” × 13” , 8½” × 13” , 8½” × 13”
    8½” × 13” , 8½” × 13” , 8½” × 13” , 8½” × 13”

  - 500-sheet finisher
    A3, B4, A4, B4, B5, A5, B6, A6, 11” × 17”
    8½” × 14” , 5½” × 8½” , 7½” × 10½”
    8½” × 13” , 8½” × 13” , 8½” × 13” , 8½” × 13”
    8½” × 13” , 8½” × 13” , 8½” × 13” , 8½” × 13”

  - 1000-sheet finisher
    12” × 18” A4, B4, A4, A4, B5, A5, B6, A6, 11” × 17”
    8½” × 14” , 8½” × 11” , 5½” × 8½” , 7½” × 10½”
    8½” × 13” , 8½” × 13” , 8½” × 13” , 8½” × 13”
    8½” × 13” , 8½” × 13” , 8½” × 13” , 8½” × 13”

  - Booklet finisher
    12” × 18” A3, B4, A4, A4, B5, A5, B6, A6, 11” × 17”
    8½” × 14” , 8½” × 11” , 5½” × 8½” , 7½” × 10½”
    8½” × 13” , 8½” × 13” , 8½” × 13” , 8½” × 13”
    8½” × 13” , 8½” × 13” , 8½” × 13” , 8½” × 13”

- Paper sizes and orientations that can be used in the Rotate Sort function are
  A4, B5 JIS, and 8½” × 11”.

- The number of copies that can be placed on the tray is as follows. When the
  number of copies exceeds capacity, remove copies from the tray.

    - Internal tray
      A4, 8½” × 11” or smaller: 500 sheets
      B4 JIS, 8½” × 14” or larger: 250 sheets

    - Internal tray 2
      125 sheets

    - Internal shift sort tray
      A4, 8½” × 11” or smaller: 250 sheets
      B4 JIS, 8½” × 14” or larger: 125 sheets

    - 500-sheet finisher (On the Finisher tray, stack unstapled paper)
      A4, 8½” × 11” or smaller: 500 sheets
      B4 JIS, 8½” × 14” or larger: 250 sheets

    - 500-sheet finisher (On the Finisher tray, stack stapled paper)
      A4, B5 JIS, 8½” × 11” : 2-leaf binding…55 copies, 50-leaf binding…9 copies
      A3, B4 JIS, 11 × 17” , 8½” × 14” : 2-leaf binding…33 copies, 30-leaf binding…8 copies

    - 1000-sheet finisher (Finisher upper tray)
      A4, 8½” × 11” or smaller: 250 sheets
      B4 JIS, 8½” × 14” or larger: 50 sheets

    - 1000-sheet finisher (On the Finisher shift tray, stack unstapled paper)
      A4, 8½” × 11” or smaller: 1000 sheets
      B4 JIS, 8½” × 14” or larger: 500 sheets
• 1000-sheet finisher (On the Finisher shift tray, stack stapled paper)
  A4, 8.5” × 11” : 10 to 50-leaf binding...100 to 20 copies, 2 to 9-leaf binding...100 copies
  A4, B5 JIS, 8.5” × 11” : 10 to 50-leaf binding...50 to 10 copies, 2 to 9-leaf binding...100 copies
  A3, B4 JIS, 11” × 17” , 8.5” × 14”, 12” × 18” : 10 to 30-leaf binding...50 to 10 copies, 2 to 9-leaf binding...50 copies

• Booklet finisher (Finisher tray)
  A4, 8.5” × 11” or smaller: 100 sheets
  B4 JIS, 8.5” × 14” or larger: 50 sheets

• Booklet finisher (On the Finisher tray2, stack unstapled paper)
  A4, 8.5” × 11” or smaller: 1,000 sheets
  B4 JIS, 8.5” × 14” or larger: 500 sheets

• Booklet finisher (On the Finisher tray2, stack stapled paper)
  A4, B5 JIS, 8.5” × 11” : 10 to 50-leaf binding...100 to 20 copies, 2 to 9-leaf binding...100 copies
  A4, B5 JIS, 8.5” × 11” : 10 to 50-leaf binding...50 to 10 copies, 2 to 9-leaf binding...100 copies
  A3, B4 JIS, 11” × 17” , 8.5” × 14”, 8.5” × 11” : 10 to 30-leaf binding...50 to 10 copies, 2 to 9-leaf binding...50 copies

• Booklet finisher (Booklet tray)
  A3, B4 JIS, A4, 11” × 17”, 8.5” × 14”, 8.5” × 11” : 2 to 5-leaf binding...30 copies, 6 to 10-leaf binding...15 copies

• When using the Rotate Sort or Staple functions, the capacity may be reduced.

• Installing the finisher to the internal tray also reduces the number of paper it can house.

❖ Staple
• The following type of paper cannot be stapled:
  • Postcard
  • Translucent paper
  • OHP transparencies
  • Label paper (adhesive labels)
  • Curled paper
  • Paper of low stiffness
  • Paper of mixed sizes
• In the following cases, copies will be delivered to the shift tray without stapling:
  • When the number of sheets for one set is over stapler capacity.
  • When memory reaches 0% during copying.
• When using the Staple function with [1 Sided → 1 Sided], [1 Sided → 2 Sided], [2 Sided → 1 Sided], [2 Sided → 2 Sided], [Double Copies], select [ ] original for [ ] and [ ] original for [ ] copy.
When using the Staple function with \([1 \text{ sided } \rightarrow \text{ Comb 2 orig}], [1 \text{ sided } \rightarrow 2 \text{ sided:TtoB}], [1 \text{ sided } \rightarrow 2 \text{ sided:TtoT}], [\text{Double Copies}],\) select \(\square\) paper for \(\square\) original and \(\square\) for \(\square\) original.

When using the Staple function \([\text{Staple: Left 2}]\) or \([\text{Staple: Top 2}]\) with the Combine function \([1 \text{ Sided } \rightarrow 1 \text{ Sided}], [1 \text{ Sided } \rightarrow 2 \text{ Sided}], [2 \text{ Sided } \rightarrow 1 \text{ Sided}], [2 \text{ Sided } \rightarrow 2 \text{ Sided}], [\text{Double Copies}],\) select \(\square\) paper for \(\square\) original and \(\square\) for \(\square\) original.

If a finisher is installed, the mixed size function and the auto paper selection function become available. These functions make it possible to choose the paper appropriate for stapling from the mixed sizes. Prior to the operation, you should set on the feed tray the paper of the size to be used. Following sizes allow the stapling when mixed with other sizes:

- A3\(\square\) and A4\(\square\)
- B4 JIS\(\square\) and B5 JIS\(\square\)
- \(11” \times 17”\) and \(8\frac{1}{2}” \times 11”\)

Paper sizes and orientation that can be used in the Staple function and the stapler capacity are as follows:

- 500-sheet finisher
  - A3\(\square\), B4 JIS\(\square\), \(11” \times 17”\), \(8\frac{1}{2}” \times 14”\): 30 sheets
  - A4\(\square\), B5 JIS\(\square\), \(8\frac{1}{2}” \times 11”\): 50 sheets

- 1000-sheet finisher
  - 12”\(\times 18”\), A3\(\square\), B4 JIS\(\square\), \(11” \times 17”\), \(8\frac{1}{2}” \times 14”\), \(8” \times 13”\), \(8\frac{1}{2}” \times 13”\), \(8\frac{1}{4}” \times 13”\), 8K\(\square\): 30 sheets
  - A4\(\square\), B5 JIS\(\square\), \(8\frac{1}{2}” \times 11”\), \(7\frac{3}{4}” \times 10\frac{1}{2}”\), 16K\(\square\): 50 Sheets

- Booklet finisher
  - A3\(\square\), B4 JIS\(\square\), \(11” \times 17”\), \(8\frac{1}{2}” \times 14”\): 30 sheets
  - A4\(\square\), B5 JIS\(\square\), \(8\frac{1}{2}” \times 11”\): 50 sheets
  - When stapling center: A3\(\square\), B4 JIS\(\square\), A4\(\square\), B5 JIS\(\square\), \(11” \times 17”\), Legal \(8\frac{1}{2}” \times 14”\), \(8\frac{1}{2}” \times 11”\): 10 sheets

- When stapling B4 JIS\(\square\), A3\(\square\), Legal \(8\frac{1}{2}” \times 14”\), \(11” \times 17”\), be sure to extend the paper support plate of the finisher tray.

- When the number of copies exceeds tray capacity, copying stops. If this happens, remove the copies from the shift tray, and then resume copying. The tray capacity for the stapled sheets is as follows: (paper weight: 80 g/m2, 20 lb.)
  - 500-sheet finisher (Finisher tray 1)
    - A4\(\square\), B5 JIS\(\square\), \(8\frac{1}{2}” \times 11”\): 2-leaf binding...55 copies, 50-leaf binding...9 copies
    - A3\(\square\), B4 JIS\(\square\), \(11” \times 17”\), \(8\frac{1}{2}” \times 14”\): 2-leaf binding...33 copies, 30-leaf binding...8 copies
• 1000-sheet finisher (Finisher shift tray)
  A4\(\text{K}\), 8\(\frac{1}{2}\)\” × 11”\(\text{K}\): 10 to 50-leaf binding...100 to 20 copies, 2 to 9-leaf binding...100 copies A4\(\text{K}\), B5 JIS\(\text{K}\), 8\(\frac{1}{2}\)\” × 11”\(\text{K}\): 10 to 50-leaf binding...50 to 10 copies, 2 to 9-leaf binding...100 copies A3\(\text{K}\), B4\(\text{K}\), 11” × 17”\(\text{K}\), 8\(\frac{1}{2}\)\” × 14”\(\text{K}\), 12” × 18”\(\text{K}\): 10 to 30-leaf binding...50 to 10 copies, 2 to 9-leaf binding...50 copies

• Booklet finisher
  A4\(\text{K}\), B5 JIS\(\text{K}\), 8\(\frac{1}{2}\)\” × 11”\(\text{K}\): 10 to 50-leaf binding...100 to 20 copies, 2 to 9-leaf binding...100 copies
  A4\(\text{K}\), B5 JIS\(\text{K}\), 8\(\frac{1}{2}\)\” × 11”\(\text{K}\): 10 to 50-leaf binding...50 to 10 copies, 2 to 9-leaf binding...100 copies
  A3\(\text{K}\), B4 JIS\(\text{K}\), 11” × 17”\(\text{K}\), 8\(\frac{1}{2}\)\” × 14")\(\text{K}\): 10 to 30-leaf binding...50 to 10 copies, 2 to 9-leaf binding...50 copies
  Booklet tray: A3\(\text{K}\), B4 JIS\(\text{K}\), A4\(\text{K}\), 11” × 17”\(\text{K}\), 8\(\frac{1}{2}\)\” × 14”\(\text{K}\), 8\(\frac{1}{2}\)\” × 11”\(\text{K}\): 2 to 5-leaf binding...30 copies, 6 to 10-leaf binding...15 copies

• You cannot change stapling positions during copying.
• When the original image is rotated, the staple orientation changes by 90°.
• The maximum original image size that can be rotated is as follows: Metric version: A4, Inch version: 8\(\frac{1}{2}\)\” × 11”

• When using [Staple: Slant], [Staple: Bottom Slant], [Staple: Left 2], [Staple: Top 2] with Combine, Double copies or Auto Reduce / Enlarge function, “Blank part will appear. Check orientation.” message may appear depending on the orientation of originals and paper you placed. In this case, change the paper orientation.
• When [Staple: Left 2], [Staple: Top 2] is selected, the following settings are useful to rotate images appropriately:
  • [Auto Reduce / Enlarge] or [Auto Paper Select]
  • Replace [Auto Tray Switching] with [With Image Rotation] in the User Tool’s Copier / Document Server Features

• If you select Saddle Stitch function with the optional booklet finisher, the machine staples and folds the paper in the center, then delivers the paper folded.
• If you select [Staple: Center] from the Booklet or Magazine function, the machine staples the paper, and folds it like a book, then delivers the paper folded.

❖ Punch

• When using Punch and Combine, Double Copies, or Auto Reduce/Enlarge, the message “Blank part will appear. Check orientation.” may appear because of the orientation of the original and the copy paper. If this occurs, change the orientation of the copy paper.
• Since punch holes are made in each copy, the punch hole positions vary slightly.
• Punchable paper sizes are as follows:
  - 2 and 4 holes type (2 holes)
    A3\#, B4 JIS\#, A4\#, B5 JIS\#, A5\#, 11” × 17”\#, 8 1/2” × 14”\#, 8 1/2” × 11”\#, 7 1/4” × 10 1/2”\#, 8 1/2” × 13”\#, 8 1/4” × 13”\#, 8” × 13”\#, 8K\#, 16K\#
  - 2 and 4 holes type (4 holes)
    A3\#, B4 JIS\#, A4\#, B5 JIS\#, A5\#, 11” × 17”\#, 8 1/2” × 11”\#, 7 1/4” × 10 1/2”\#, 8K\#, 16K\#
  - 2 and 3 holes type (2 holes)
    A3\#, B4 JIS\#, A4\#, B5 JIS\#, A5\#, 11” × 17”\#, 8 1/2” × 14”\#, 8 1/2” × 11”\#, 7 1/4” × 10 1/2”\#, 8 1/2” × 13”\#, 8 1/4” × 13”\#, 8” × 13”\#, 8K\#, 16K\#
  - 2 and 3 holes type (3 holes)
    A3\#, B4 JIS\#, A4\#, B5 JIS\#, A5\#, 11” × 17”\#, 8 1/2” × 11”\#, 7 1/4” × 10 1/2”\#, 8K\#, 16K\#
  - 4 holes type
    A3\#, B4 JIS\#, A4\#, B5 JIS\#, A5\#, 11” × 17”\#, 8 1/2” × 14”\#, 8 1/2” × 11”\#, 7 1/4” × 10 1/2”\#, 8 1/2” × 13”\#, 8 1/4” × 13”\#, 8” × 13”\#, 8K\#, 16K\#

❖ Duplex

• You cannot use the following copy paper with this function:
  - A3\#, B4 JIS\#, A4\#, B5 JIS\#, A5\#, 11” × 17”\#, 8 1/2” × 14”\#, 8 1/2” × 11”\#, 7 1/4” × 10 1/2”\#, 8 1/2” × 13”\#, 8 1/4” × 13”\#, 8” × 13”\#, 8K\#, 16K\#

• You cannot use the following copy paper with this function:
  - Paper smaller than A5, 5 1/2” × 8 1/2”
  - Translucent paper
  - Label paper (adhesive labels)
  - OHP transparencies
  - Paper thicker than 105 g/m\(^2\), 28 lb.
  - Paper thinner than 64 g/m\(^2\), 17 lb.
  - Postcards
  - When an odd number of originals is placed in the ADF, the back of the last page of copied paper is blank.
  - During copying, the image is shifted to allow for the binding margin.
❖ **Combine**

- In this mode, the machine selects the reproduction ratio automatically. This reproduction ratio depends on copy paper sizes and the number of originals.
- The reproduction ratios you can specify are 25-400%. If the machine is equipped with a Copy Data Security Unit, the range is from 50 to 400%.
- If the calculated ratio is under the minimum ratio, it is automatically adjusted to within available range. However, with some ratios, parts of the image might not be copied.
- You cannot use custom size paper.
- If the orientation of originals is different from that of the copy paper, the machine will automatically rotate the image by 90° to make copies properly.
- If the number of originals placed is less than the number specified for combining, the last page segment is left blank as shown.

❖ **Booklet/Magazine**

- The machine sets the reproduction ratio automatically to meet the paper size and copies the originals together onto the paper.
- The reproduction ratios you can specify are 25-400%. If the machine is equipped with a Copy Data Security Unit, the range is from 50 to 400%.
- If the calculated ratio is under the minimum ratio, it is automatically adjusted to within available range. However, with some ratios, parts of the image might not be copied.
- If the orientation of originals is different from that of the copy paper, the machine will automatically rotate the image by 90° to make copies properly.
- You cannot copy with originals different in size and orientation.
- If the number of originals scanned is less than a multiple of 4, the last page is copied blank.
- In Magazine mode, the copying may take some time after scanning originals.
- When the optional booklet finisher is installed, if you select Saddle Stitch function in Magazine mode, the machine staples and folds the paper in the center, then delivers the paper folded.
❖ **Image Repeat**
- Depending on the paper size, ratio, and orientation, parts of repeated images may not be copied.

❖ **Centering**
- Though the original is set to a different orientation from the paper loaded, the machine will not rotate the image by 90° (Rotate copy).

❖ **Erase**
- The width of the erased margin varies depending on the reproduction ratio.
- If the size of the original is different from sizes listed in the following chart, the erased margin might be shifted:
  - **Metric version**
    - Exposure glass: A3, B4 JIS, A4, B5 JIS
    - ADF: A3, B4 JIS, A4, B5 JIS, A5
  - **Inch version**
    - Exposure glass: 11” × 17”, 8 1/2” × 14”, 8 1/2” × 11”
    - ADF: 11” × 17”, 8 1/2” × 14”, 8 1/2” × 11”, 5/2” × 8 1/2”

❖ **Background Numbering**
- The numbers appear to overlap the copied image in some cases.

❖ **Margin Adjustment**
- If you set a binding margin that is too wide, part of the image may not be copied.
- When making copies in Combine mode, the binding margin is added to the copies after the combination is finished.

❖ **Preset Stamp**
- You can change the size and density of the stamp with User Tools. Depending on the setting, density may change.
- Depending on paper size, if you change the stamp size, parts of the stamp might not be printed.
❖ Date Stamp
• When using Combine mode, the date stamp is printed as follows:
  • With the Combine function

```
1/21/2006
AB
```

• With the Magazine or Booklet function

```
1/21/2006
AB
```

❖ Page Numbering
• When page numbering is used with Combine mode, page numbers are
  printed as follows:
• Page Numbering per original:
  With 1 Sided/2 Sided using the Combine function

```
P1  P2
AB AB
```

With the Magazine or Booklet function

```
P4  P1
DA DA
```

• Page Numbering per copy:
  With 1 Sided/2 Sided using the Combine function

```
P1
AB AB
```

```
```
• If you combine this function with the Duplex (Top to Top) function and select \([P1,P2...]\) or \([1/5,2/5...]\), page numbers on the back are printed as follows:

![Diagram of page numbers](image)

1. Front
2. Back

❖ Front Cover, Front/Back Cover

• If Blank mode is selected, the cover will not be counted as a copy.
• Front and back covers are two-sided copied depending on the settings made in Display Time in Cover Sheet Tray of User Tools (System Settings).
  • At Mode Selected… Depends on the setting done from Cover Sheet Tray.
  • Full Time… Depends on the setting done from Paper Type. See “Paper Type”, “Cover Sheet Tray”, General Settings Guide.

❖ Slip sheet

• If you do not copy onto slip sheets, they are excluded from the number of copies counted.
